11	Inca civilization	Nền văn minh Inca
12	Gradual appreciation	Sự nhận thức / thấu hiểu tăng dần theo thời gian

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: The ancient ruins were hidden deep within the _____ of the Andes, accessible only via steep mountain tracks.

- A. country estate B. remote hinterland
C. wide acceptance D. work of hindsight

Question 2: To avoid treacherous river rapids, the explorers decided to take a _____ through the mountain passes.

- A. grand sweep B. circuitous route C. Spanish conquest D. desperate attempt

Question 3: Archeologists discovered a massive _____ at the heart of the site, likely used for royal religious rituals.

- A. country estate B. wide acceptance
C. ceremonial building D. gradual appreciation

Question 4: Scholars noted that Bingham's famous memoir was largely a _____, written decades after his initial expedition.

- A. Spanish conquest B. remote hinterland
C. grand sweep D. work of hindsight

Question 5: Many historic cities across South America were permanently altered or destroyed during the era of the _____.

- A. Spanish conquest B. circuitous route
C. ceremonial building D. desperate attempt

Exercise 2: Choose the correct collocation.

Question 6: Recent archaeological evidence suggests Machu Picchu was originally designed as a peaceful _____ for the emperor.

- A. country estate B. gradual appreciation
C. circuitous route D. work of hindsight

Question 7: Visitors to the sacred site are routinely awed by its extraordinary stonework and _____.

- A. remote hinterland B. monumental architecture
C. Spanish conquest D. desperate attempt

Question 8: The theory that Machu Picchu served as a royal retreat has gained _____ among modern historians.

- A. wide acceptance B. ceremonial building
C. grand sweep D. circuitous route

Question 9: For nearly four decades, Bingham made a _____ to prove his theory regarding the lost city of Vilcabamba.

- A. work of hindsight B. remote hinterland
C. desperate attempt D. gradual appreciation

Question 10: As the explorer climbed higher up the ridge, he was greeted by a _____ of stone terraces clinging to the cliffside.

- A. Spanish conquest B. country estate
C. wide acceptance D. grand sweep

Exercise 3: Complete the sentences.

Question 11: The sudden disappearance of the city's inhabitants prior to the invasion continues to _____ modern researchers.

- A. precede B. perplex C. flee D. appreciate

Question 12: Members of the royal family and high-ranking Inca _____ spent their winter months in warmer valley retreats.

- A. elite B. custom C. canyon D. ascent

Question 13: Standing before the majestic ruins at sunrise, the young traveler felt completely _____ by the spectacle.

- A. inaccurate B. desperate C. spellbound D. ceremonial

Question 14: Modern carbon-dating techniques revealed that Bingham's original timeline for the site was entirely _____.

- A. inaccurate B. monumental C. substantial D. circuitous

Question 15: The journey up the steep mountain track was a difficult _____, requiring several hours of arduous trekking.

- A. prospect B. mausoleum C. ascent D. hinterland

Exercise 4: Choose the best answer.

Question 16: The word **circuitous** is closest in meaning to:

- A. direct B. narrow C. steep D. roundabout

Question 17: The word **monumental** is closest in meaning to:

- A. modest B. impressive C. modern D. fragile

Question 18: The word **perplex** is closest in meaning to:

- A. enlighten B. convince C. baffle D. excite

Question 19: The word **spellbound** is closest in meaning to:

- A. bored B. terrified C. mesmerized D. confused

Question 20: The word **chronicler** is closest in meaning to:

- A. historian B. soldier C. trader D. monarch

25	phenomenon	n	/fəˈnɒmɪnən/	hiện tượng	occurrence, event, trend

PART 2. COLLOCATIONS

STT	Collocation	Meaning
1	cognitive mechanism	cơ chế nhận thức
2	conflict management	quản lý / xử lý xung đột
3	persistent competition	sự cạnh tranh dai dẳng / liên tục
4	background noise	tiếng ồn nền
5	language co-activation	sự kích hoạt ngôn ngữ đồng thời
6	sensory processing	xử lý giác quan
7	tip-of-the-tongue state	trạng thái "sắp nhớ ra" (ngay trên đầu lưỡi)

8	degenerative brain disease	bệnh thoái hóa não
9	auditory input	tín hiệu / đầu vào thính giác
10	physical sign	dấu hiệu thể chất / thực thể
11	fundamental frequency	tần số cơ bản (của âm thanh)
12	real-world benefit	lợi ích trong thực tế

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: Managing two active languages forces the brain to continuously engage in complex _____.

A. conflict management B. background noise C. auditory input D. physical signs

Question 2: Studies show that when listening to speech amidst heavy _____, bilinguals encode sound frequencies more clearly.

A. tip-of-the-tongue states B. cognitive mechanisms
C. real-world benefits D. background noise

Question 3: Alzheimer's disease is a well-known _____ that gradually destroys memory and thinking skills.

A. language co-activation B. persistent competition
C. sensory processing D. degenerative brain disease

Question 4: Hearing a spoken syllable provides immediate _____ that instantly triggers candidate words in both languages.

A. physical sign B. fundamental frequency C. auditory input D. conflict management

Question 5: Older adults who speak multiple languages gain clear _____ in maintaining mental sharpness over time.

A. real-world benefits B. persistent competition
C. tip-of-the-tongue states D. background noise

Exercise 2: Choose the correct collocation.

Question 6: The dynamic known as _____ explains why hearing a word in one language activates words in another.

A. fundamental frequency B. sensory processing
C. language co-activation D. physical sign

Question 7: Frequent instances of the _____ happen when a speaker struggles to recall a known word instantly.

A. conflict management B. tip-of-the-tongue state
C. cognitive mechanism D. background noise

Question 8: Bilingualism enhances neural areas responsible for basic _____ beyond standard speech perception.

A. persistent competition B. real-world benefit
C. sensory processing D. degenerative brain disease

Question 9: Doctors noticed that patients showed identical cognitive performance

despite having more severe _____ of pathology.

- A. fundamental frequencies B. auditory inputs
- C. physical signs D. conflict managements

Question 10: Constant practice in controlling language switching keeps a person's underlying _____ highly resilient.

- A. cognitive mechanism B. background noise
- C. tip-of-the-tongue state D. language co-activation

Exercise 3: Complete the sentences

Question 11: To keep functioning despite neural damage, the aging brain can _____ alternate networks for mental tasks.

- A. excel B. compensate C. navigate D. navigate

Question 12: Bilingual individuals often _____ at switching between different categorisation rules in complex tests.

- A. juggle B. excel C. impart D. root

Question 13: Early exposure to two languages helps infants _____ complex rule changes far more efficiently.

- A. navigate B. compensate C. recruit D. conflict

Question 14: Additional brain networks help _____ for damaged pathways, delaying visible symptoms of disease.

- A. impart B. compensate C. juggle D. root

Question 15: Navigating a complex linguistic environment can _____ long-lasting cognitive advantages to young children.

- A. compensate B. excel C. impart D. navigate

Exercise 4: Choose the best answer.

Question 16: The word **compensate** is closest in meaning to:

- A. make up for B. destroy C. ignore D. worsen

Question 17: The word **compelling** is closest in meaning to:

- A. weak B. unclear C. convincing D. boring

Question 18: The word **excel** is closest in meaning to:

- A. fail B. outperform C. struggle D. slow down

Question 19: The word **counterpart** is closest in meaning to:

- A. opponent B. ancestor C. stranger D. equivalent

Question 20: The word **impart** is closest in meaning to:

- A. withhold B. bestow C. remove D. conceal

1	inhospitable environment	môi trường sống khắc nghiệt
2	captive-breeding programme	chương trình nhân giống nuôi nhốt
3	historical exploitation	sự khai thác trong lịch sử
4	alien species	loài sinh vật ngoại lai
5	treacherous hike	cuộc đi bộ đường dài đầy nguy hiểm

6	unprecedented effort	nỗ lực chưa từng có tiền lệ
7	logistical support	hỗ trợ hậu cần
8	maximum payload	tải trọng tối đa
9	juvenile tortoise	rùa con / rùa chưa trưởng thành
10	lunar landscape	cảnh quan cằn cỗi như mặt trăng
11	barren terrain	địa hình cằn cỗi
12	environmentalist liaison officer	cán bộ liên lạc môi trường

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: The interior of Isabela Island is characterized by a harsh, _____ where very few plants can thrive.

- A. maximum payload B. inhospitable environment
C. juvenile tortoise D. logistical support

Question 2: To save endangered species from total extinction, scientists often establish a successful _____.

- A. alien species B. treacherous hike
C. captive-breeding programme D. lunar landscape

Question 3: The introduction of _____ like rats and goats severely threatened the native biodiversity of the islands.

- A. alien species B. historical exploitation C. maximum payload D. juvenile tortoises

Question 4: Transporting hundreds of animals across rugged mountains required an _____ by park officials and volunteers.

- A. inhospitable environment B. alien species
C. historical exploitation D. unprecedented effort

Question 5: Before helicopters were introduced, rangers had to make a long and _____ carrying heavy crates on their backs.

- A. maximum payload B. logistical support
C. treacherous hike D. captive-breeding programme

Exercise 2: Choose the correct collocation.

Question 6: Private yacht owners provided essential _____ by lending their helicopter and full crew to the mission.

- A. logistical support B. lunar landscape C. alien species D. historical exploitation

Question 7: Due to centuries of _____, thousands of giant tortoises were removed from the archipelago for oil and meat.

- A. juvenile tortoises B. treacherous hikes
C. maximum payload D. historical exploitation

Question 8: The pilot had to carefully weigh the crates because the total cargo was nearing the helicopter's _____.

- A. inhospitable environment B. maximum payload

C. lunar landscape D. alien species

Question 9: Once released into the wild, each _____ began exploring its new volcanic habitat with enthusiasm.

A. logistical support B. historical exploitation C. juvenile tortoise D. maximum payload

Question 10: With its volcanic rocks and absence of plant life, the lower part of the island resembles a barren _____.

A. lunar landscape B. captive-breeding programme
C. alien species D. logistical support

Exercise 3: Complete the sentences

Question 11: Human settlement and introduced livestock worked to _____ the fragile island ecosystem.

A. exacerbate B. colonise C. lumber D. respite

Question 12: Millions of years ago, ancestral tortoises managed to _____ the isolated Galápagos islands from the mainland.

A. lumber B. colonise C. exacerbate D. custom

Question 13: The huge centenarian tortoise began to _____ slowly across the volcanic trail towards the lush vegetation.

A. colonise B. lumber C. exacerbate D. respite

Question 14: Overpopulation at the breeding facility created a _____ need to release young animals back into their natural habitats.

A. ancestral B. custom C. immobile D. pressing

Question 15: High up on Sierra Negra's misty peak, moist vegetation offers a welcome _____ from the hot, dry plains below.

A. payload B. archipelago C. respite D. predator

Exercise 4: Choose the best answer.

Question 16: The word **exacerbate** is closest in meaning to:

A. organize B. improve C. prevent D. worsen

Question 17: The word **unprecedented** is closest in meaning to:

A. common B. historic C. failed D. ancient

Question 18: The word **treacherous** is closest in meaning to:

A. safe B. smooth C. perilous D. brief

Question 19: The word **pressing** is closest in meaning to:

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: Low-lying tropical regions are typically classified as a _____ due to their warm and humid weather.

- A. income bracket B. malaria-prone area
C. healthcare provision D. basic epidemiology

Question 2: Many developing countries face severe air pollution challenges caused by extremely _____.

- A. rapid industrialisation B. high-altitude desert
C. vulnerable population D. income bracket

Question 3: People living in heavily polluted urban areas frequently suffer from various forms of _____.

- A. healthcare provision B. respiratory disease
C. international organisation D. hybrid science

Question 4: Health geography is described as a _____ that merges spatial analysis with medical knowledge.

- A. basic epidemiology B. geographical factor
C. income bracket D. hybrid science

Question 5: Ensuring equal _____ to both rural and urban communities remains a major challenge for governments.

- A. rapid industrialisation B. malaria-prone area
C. healthcare provision D. high-altitude desert

Exercise 2: Choose the correct collocation.

Question 6: Health geographers who work on disease distribution must possess a solid grounding in _____.

- A. basic epidemiology B. income bracket
C. massive amounts of smog D. international organisation

Question 7: Families belonging to a lower _____ often face significant financial barriers when seeking specialized treatment.

- A. geographical factor B. income bracket
C. hybrid science D. respiratory disease

Question 8: Public health campaigns usually focus their primary protection efforts on the most _____ in times of outbreak.

- A. rapid industrialisation B. vulnerable population
C. high-altitude desert D. healthcare provision

Question 9: Dense vehicle traffic and coal-burning factories generate _____ over large industrial cities every winter.

- A. massive amounts of smog B. international organisations
C. malaria-prone areas D. hybrid sciences

Question 10: Researchers consult with each major _____ to coordinate emergency health relief across national borders.

- A. basic epidemiology B. income bracket
C. international organisation D. geographical factor

10	unfulfilled expectation	kỳ vọng chưa được đáp ứng
11	embodied meaning	ý nghĩa hiện hữu / nội tại
12	abstract art form	hình thức nghệ thuật trừu tượng

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: Hearing a crescendo build up in a musical piece creates a state of intense _____.

- A. abstract art form B. embodied meaning
C. studious avoidance D. emotional arousal

Question 2: Brain imaging allows neuroscientists to uncover the _____ behind complex human emotions.

- A. intricate pattern B. acoustic climax
C. precise underpinnings D. unfulfilled expectation

Question 3: Music acts as a highly _____ that triggers a surge of dopamine in the pleasure centers of the brain.

- A. suspenseful tension B. abstract art form
C. potent stimulus D. studious avoidance

Question 4: During the _____, neurons in the caudate become active as the brain tries to guess the next chord.

- A. acoustic climax B. anticipatory phase
C. embodied meaning D. unfulfilled expectation

Question 5: Listeners often feel goosebumps right when the symphony reaches its dramatic _____.

- A. acoustic climax B. studious avoidance
C. abstract art form D. precise underpinnings

Exercise 2: Choose the correct collocation.

Question 6: A symphony is woven from an ___ of rhythms, harmonies, and melodies.

- A. intricate pattern B. anticipatory phase
C. emotional release D. acoustic climax

Question 7: Beethoven deliberately practiced a _____ of the home key until the final measures of the movement.

- A. potent stimulus B. embodied meaning
C. studious avoidance D. emotional arousal

Question 8: When the long-delayed key chord is finally played, listeners experience a profound sense of _____.

- A. unfulfilled expectation B. emotional release
C. precise underpinnings D. abstract art form

Question 9: According to musicologists, a feeling of _____ is generated when our brain struggles to predict what note comes next.

- A. suspenseful tension B. anticipatory phase
C. acoustic climax D. potent stimulus

Question 10: Delays in resolving a harmonic progression lead to an _____, which fuels our curiosity.

- A. emotional release B. intricate pattern
C. studious avoidance D. unfulfilled expectation

Exercise 3: Complete the sentences

Question 11: When a person hears exciting music, their pupils _____ and their blood pressure increases.

- A. dilate B. dissect C. anticipate D. avoid

Question 12: Brilliant composers use _____ harmonic choices to flirt with the listener's expectations.

- A. predictable B. ingenious C. unresolved D. connotative

Question 13: If a musical melody is too simple and _____, the brain quickly becomes bored.

- A. suspenseful B. potent C. predictable D. intricate

Question 14: In his famous book, the music scholar decided to _____ 50 bars of Beethoven's string quartet to prove his theory.

- A. dilate B. dissect C. anticipate D. surge

Question 15: An unexpected change in the beat causes a sudden _____ of dopamine in the brain's reward center.

- A. surge B. avoidance C. submission D. labyrinth

Exercise 4: Choose the best answer.

Question 16: The word **potent** is closest in meaning to:

- A. powerful B. hidden C. gentle D. recent

Question 17: The word **dissect** is closest in meaning to:

- A. publish B. perform C. compose D. analyze

3	lead crystal glass	thủy tinh pha lê chì
4	refractive index	chiết suất (độ khúc xạ)
5	optical lens	thấu kính quang học
6	astronomical telescope	kính thiên văn
7	repeal of an act	sự bãi bỏ một đạo luật / quy định
8	fiercely competitive	cạnh tranh khốc liệt
9	consumer concern	sự quan tâm của người tiêu dùng

10	raw material	nguyên liệu thô
11	major milestone	cột mốc quan trọng
12	green issues	các vấn đề về môi trường / sinh thái

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: The discovery of glass with a high _____ was crucial for manufacturing precision optical lenses.

- A. repeal of an act B. refractive index
C. consumer concern D. natural glass

Question 2: George Ravenscroft's invention of lead crystal marked a _____ in European industrial craftsmanship.

- A. major milestone B. green issue
C. repeal of an act D. consumer concern

Question 3: Modern glassmakers operate in a _____ global market that demands high quality and design innovation.

- A. optical lens B. hollow glass container
C. fiercely competitive D. natural glass

Question 4: Ancient civilizations relied on volcanic eruptions to produce obsidian, a form of _____.

- A. natural glass B. optical lens C. repeal of an act D. raw material

Question 5: Growing _____ regarding plastic waste has led to a dramatic resurgence in glass bottle recycling.

- A. refractive index B. consumer concern
C. astronomical telescope D. major milestone

Exercise 2: Choose the correct collocation.

Question 6: Around 1500 BC, artisans learned to wrap molten material around a sand core to form the first _____.

- A. fiercely competitive B. refractive index
C. repeal of an act D. hollow glass container

Question 7: Astronomers during the Scientific Revolution benefited immensely from clearer lenses in every early _____.

- A. green issue B. astronomical telescope
C. consumer concern D. natural glass

Question 8: The British glass industry boomed rapidly following the official _____ in 1845.

- A. repeal of an act B. raw material
C. refractive index D. optical lens

Question 9: Impurities found in the local _____ were responsible for the distinct green or brown tint in ancient glass.

- A. astronomical telescope B. major milestone
C. raw material D. repeal of an act

Question 10: Environmental campaigns regularly encourage manufacturers to focus on eco-friendly packaging and other _____.

- A. green issues B. optical lenses
C. refractive indexes D. hollow glass containers

Exercise 3: Complete the sentences

Question 11: The intense heat generated by a volcanic eruption can easily _____ surrounding quartz sand into obsidian.

- A. melt B. repeal C. quarry D. levy

Question 12: To promote recycled products, governments may choose to _____ heavy taxes on non-recyclable alternatives.

- A. melt B. repeal C. quarry D. levy

Question 13: Recycling old glass containers reduces the need to _____ raw limestone and sand from pristine environments.

- A. levy B. repeal C. quarry D. melt

Question 14: Parliament decided to _____ the burdensome tax laws after decades of complaints from factory owners.

- A. quarry B. repeal C. levy D. melt

Question 15: Thousands of tons of household waste are diverted away from the local _____ every year through recycling drives.

- A. landfill B. beverage C. cosmetic D. craft

Exercise 4: Choose the best answer.

Question 16: The word **invaluable** is closest in meaning to:

- A. priceless B. worthless C. temporary D. cheap

Question 17: The word **repeal** is closest in meaning to:

- A. cancellation B. introduction C. continuation D. enforcement

Question 18: The word **fiercely** is closest in meaning to:

- A. weakly B. intensely C. slowly D. silently

Question 19: The word **beverage** is closest in meaning to:

- A. dish B. medicine C. drink D. container

Question 20: The word **quarried** is closest in meaning to:
