2	early language exposure	sự tiếp xúc ngôn ngữ sớm
3	bilingual home	gia đình sử dụng song ngữ
4	bridge hypothesis	giả thuyết cầu nối (vai trò giao tiếp của người bố)
5	socioeconomic status	địa vị kinh tế - xã hội
6	one-on-one context	bối cảnh tương tác trực tiếp 1-đối-1

continuously

7	auditory cues	các tín hiệu / manh mối thính giác
8	motor areas	vùng vận động (trong vỏ não)
9	native language	ngôn ngữ mẹ đẻ
10	brain activation	sự kích hoạt não bộ
11	language skills	các kỹ năng ngôn ngữ
12	speech-recognition software	phần mềm nhận diện giọng nói

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: Fathers often speak in standard pitch rather than high-pitched tones to serve as a bridge to broader _____.

- A. early language exposure B. motor areas
C. infant-directed speech D. brain activation

Question 2: Children raised in a _____ often exhibit enhanced cognitive flexibility when processing complex information.

- A. bilingual home B. socioeconomic status
C. native language D. speech-recognition software

Question 3: Frequent interaction in a _____ yields significantly higher vocabulary gains than background group chatter.

- A. motor areas B. early language exposure
C. language skills D. one-on-one context

Question 4: Researchers utilized advanced _____ to track the exact quantity and frequency of parent-child interactions.

- A. auditory cues B. speech-recognition software
C. bridge hypothesis D. bilingual home

Question 5: Studies demonstrate that regular infant interaction boosts vocabulary development across every _____.

- A. motor areas B. auditory cues
C. early language exposure D. socioeconomic status

Exercise 2: Choose the correct collocation.

Question 6: Scanners showed increased _____ in seven-month-old infants when listening to unfamiliar syllables.

- A. bridge hypothesis B. brain activation
C. language skills D. speech-recognition software

Question 7: The experiment isolated purely _____ to test whether babies preferred infant vocalizations over adult tones.

- A. infant-directed speech B. native language C. auditory cues D. motor areas

Question 8: Exposure to rich parental speech helps toddlers rapidly develop essential early _____.

- A. language skills B. bilingual home C. auditory cues D. bridge hypothesis

continuously

Question 9: Neurological scans revealed that listening to speech activates the infant brain's speech-related _____.

- A. bridge hypothesis B. one-on-one context
C. early language exposure D. motor areas

Question 10: Infants can distinguish subtle phonetic contrasts in their _____ before they can produce full words.

- A. speech-recognition software B. motor areas
C. native language D. bilingual home

Exercise 3: Complete the sentences

Question 11: The exaggerated tone of baby talk appears to _____ infants to begin practicing their own vocalizations.

- A. prompt B. mimic C. uncover D. induce

Question 12: Synthesized sounds were generated to _____ the acoustic properties of natural infant vocal sounds.

- A. uncover B. induce C. prompt D. mimic

Question 13: Hearing infant recordings appeared to _____ playful facial movements and mouth gestures in listening babies.

- A. speculate B. induce C. approximate D. uncover

Question 14: Scientists _____ that babies pay closer attention to peer sounds because they recognize them as self-producible.

- A. induce B. mimic C. speculate D. prompt

Question 15: Brain imaging helped _____ the subtle mechanism by which infants discriminate foreign speech sounds.

- A. uncover B. speculate C. induce D. prompt

Exercise 4: Choose the best answer.

Question 16: The word **exaggerated** is closest in meaning to:

- A. muted B. subtle C. realistic D. dramatic

Question 17: The word **absurd** is closest in meaning to:

- A. logical B. ridiculous C. reasonable D. solemn

Question 18: The word **repertoire** is closest in meaning to:

- A. range B. limit C. deficit D. reduction

Question 19: The word **non-native** is closest in meaning to:

- A. local B. domestic C. foreign D. familiar

Question 20: The word **approximate** is closest in meaning to:

- A. contradict B. resemble C. reverse D. transform

11	Global-scale climate event	Biến đổi khí hậu quy mô toàn cầu
12	Urban and rural development	Phát triển đô thị và nông thôn

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: The discovery of lake shell sediments provided the first _____ for ancient climate change in the region.

A. water stress B. definitive evidence C. material culture D. cultural heritage

Question 2: Researchers conducted detailed _____ on snail shells to reconstruct historical rainfall levels.

A. geochemical analysis B. urban and rural development
C. archaeological debate D. water supply

Question 3: Lessons learned from ancient drought adaptation can help modern governments improve their local _____.

A. material culture B. environmental pressures
C. water supply D. climate history

Question 4: Scholars analyze local pottery styles to understand the ancient trade networks and shared _____.

A. large-scale cities B. material culture
C. global-scale climate event D. geochemical analysis

Question 5: Intense _____ continued for decades regarding whether climate change or invasion caused the civilization's fall.

A. environmental pressures B. cultural heritage
C. water stress D. archaeological debate

Exercise 2: Choose the correct collocation.

Question 6: Ancient farmers adjusted their crop combinations to cope with growing conditions under extreme _____.

A. water stress B. definitive evidence C. large-scale cities D. climate history

Question 7: Preserving ancient monuments is essential for maintaining a nation's valuable _____.

A. water supply B. geochemical analysis
C. cultural heritage D. environmental pressures

Question 8: Some scientists argue that a concurrent _____ wiped out multiple Bronze Age societies simultaneously.

A. material culture B. urban and rural development
C. archaeological debate D. global-scale climate event

Question 9: Studying past responses to _____ helps modern planners design resilient urban habitats.

continuously

- A. definitive evidence B. water stress
C. environmental pressures D. climate history

Question 10: It took over a millennium after the fall of the Harappans for new _____ to re-emerge in South Asia.

- A. large-scale cities B. material culture
C. cultural heritage D. geochemical analysis

Exercise 3: Complete the sentences

Question 11: Before new evidence was found, theories about the decline of the society were largely _____.

- A. speculative B. distinct C. proactive D. flawed

Question 12: High rates of lake evaporation relative to rainfall were clear _____ of a severe long-term drought.

- A. flawed B. distinct C. speculative D. indicative

Question 13: Modern administrative bodies are urged to be more _____ when planning long-term water management policies.

- A. indicative B. flawed C. speculative D. proactive

Question 14: Early geographical surveys proved to be badly _____, placing sites many kilometers away from their actual locations.

- A. distinct B. proactive C. flawed D. indicative

Question 15: The Harappan cities had layout structures divided into very _____ quarters for living, craft, and trade.

- A. distinct B. speculative C. flawed D. proactive

Exercise 4: Choose the best answer.

Question 16: The word **flourish** is closest in meaning to:

- A. decline B. thrive C. struggle D. disappear

Question 17: The word **demise** is closest in meaning to:

- A. birth B. expansion C. downfall D. discovery

PART 3. EXERCISES

Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

Question 1: The shift from sail to _____ revolutionized international shipping routes in the late nineteenth century.

- A. steam propulsion B. miscellaneous cargo
C. public display D. dry dock

Question 2: On her historic _____, the clipper set sail from London carrying cargo bound for China.

- A. dry dock B. life expectancy C. trade winds D. maiden voyage

Question 3: Harsh weather conditions in the Indian Ocean resulted in severe _____ that nearly crippled the vessel.

- A. maritime trade B. public display
C. steering blade / rudder damage D. steam propulsion

Question 4: Ships sailing through the southern ocean depended heavily on strong _____ to maintain high speeds.

- A. trade winds B. life expectancy C. miscellaneous cargo D. dry dock

Question 5: After serving as a cargo vessel, the legendary ship was placed on _____ in Greenwich for visitors.

- A. maiden voyage B. public display C. steam propulsion D. trade winds

Exercise 2: Choose the correct collocation.

Question 6: Captain Richard Woodget's excellent navigation skills marked a _____ in the ship's operational success.

- A. significant turnaround B. maiden voyage
C. public display D. dry dock

Question 7: Navigating through _____ required immense courage from the crew when repairing the ship at sea.

- A. life expectancy B. commercial sailing
