

## CAM 14 - TEST 1 - READING PASSAGE 1

### THE IMPORTANCE OF CHILDREN'S PLAY

Topic: Child Development • Education • Psychology

#### PART 1. VOCABULARY

| STT | Vocabulary    | POS | IPA               | Meaning                       | Synonyms                           |
|-----|---------------|-----|-------------------|-------------------------------|------------------------------------|
| 1   | repercussion  | n   | /ˌriːpəˈkʌʃn/     | hậu quả, tác động trở lại     | consequence, impact, outcome       |
| 2   | regulate      | v   | /ˈregjuleɪt/      | điều chỉnh, kiểm soát         | control, adjust, manage            |
| 3   | pretence      | n   | /prɪˈtens/        | sự giả vờ, trò chơi đóng vai  | feigning, make-believe, simulation |
| 4   | underpin      | v   | /ˌʌndəˈpɪn/       | làm cơ sở, chống đỡ, nâng đỡ  | support, buttress, foundation      |
| 5   | extol         | v   | /ɪkˈstəʊl/        | tán dương, ca ngợi            | praise, applaud, commend           |
| 6   | virtue        | n   | /ˈvɜːtʃuː/        | ưu điểm, đức tính tốt         | merit, advantage, strength         |
| 7   | mindful       | adj | /ˈmaɪndfl/        | lưu tâm, chú ý đến            | aware, conscious, attentive        |
| 8   | scarce        | adj | /skeəs/           | khan hiếm, ít có              | rare, limited, insufficient        |
| 9   | curtail       | v   | /kəˈteɪl/         | cắt giảm, hạn chế             | reduce, limit, restrict            |
| 10  | perception    | n   | /pəˈsepʃn/        | sự nhận thức, quan điểm       | view, impression, awareness        |
| 11  | implication   | n   | /ˌɪmplɪˈkeɪʃn/    | hệ quả, sự dính líp           | consequence, effect, suggestion    |
| 12  | spontaneous   | adj | /spɒnˈteɪniəs /   | bộc phát, tự nhiên, ngẫu hứng | unplanned, natural, impulsive      |
| 13  | intervene     | v   | /ˌɪntəˈviːn/      | can thiệp, xen vào            | interfere, intrude, step in        |
| 14  | self-regulate | v   | /ˌselfˈregjuleɪt/ | tự điều chỉnh, tự kiểm soát   | self-control, self-manage          |

|    |               |     |                 |                                    |                                  |
|----|---------------|-----|-----------------|------------------------------------|----------------------------------|
| 15 | facilitate    | v   | /fə'sɪlɪteɪt/   | tạo điều kiện, làm cho dễ dàng     | enable, promote, assist          |
| 16 | predictor     | n   | /prɪ'dɪktə/     | dấu hiệu dự báo, yếu tố chỉ báo    | indicator, sign, forecast        |
| 17 | diagnosis     | n   | /ˌdaɪəg'nəʊsɪs/ | sự chẩn đoán                       | identification, detection        |
| 18 | disorder      | n   | /dɪs'ɔːdə/      | sự rối loạn, căn bệnh              | illness, condition, ailment      |
| 19 | stimulus      | n   | /ˈstɪmjələs/    | sự kích thích, tác nhân kích thích | incentive, spur, motivation      |
| 20 | instructional | adj | /ɪn'strʌkʃənəl/ | mang tính hướng dẫn, giảng dạy     | educational, directive, teaching |
| 21 | backwater     | n   | /ˈbækwɔːtə/     | nơi hẻo lánh, tĩnh lặng, trì trệ   | isolation, stagnant place        |
| 22 | controversy   | n   | /ˈkɒntreɪvɜːsi/ | sự tranh cãi, cuộc bàn cãi gay gắt | dispute, debate, disagreement    |
| 23 | trivial       | adj | /ˈtrɪviəl/      | tầm thường, không quan trọng       | minor, insignificant, petty      |
| 24 | fundamental   | adj | /ˌfʌndə'mentl/  | cơ bản, nền tảng                   | essential, basic, core           |
| 25 | adaptable     | adj | /ə'dæptəbl/     | có thể thích nghi                  | flexible, versatile, adjustable  |

## PART 2. COLLOCATIONS

| STT | Collocation                 | Meaning                       |
|-----|-----------------------------|-------------------------------|
| 1   | Play-based learning         | Học thông qua hoạt động chơi  |
| 2   | Self-regulate emotions      | Tự điều chỉnh cảm xúc         |
| 3   | Long-term impact            | Tác động lâu dài              |
| 4   | Academic performance        | Kết quả / Thành tích học tập  |
| 5   | Scientific reasoning        | Tư duy / Suy luận khoa học    |
| 6   | Neurodevelopmental disorder | Rối loạn phát triển thần kinh |

|    |                          |                                     |
|----|--------------------------|-------------------------------------|
| 7  | Intellectual debate      | Cuộc tranh luận trí tuệ / học thuật |
| 8  | Spontaneous play         | Trò chơi ngẫu hứng / tự phát        |
| 9  | Highly adaptable species | Loài có khả năng thích nghi cao     |
| 10 | Primary school teacher   | Giáo viên tiểu học                  |
| 11 | Fundamental contribution | Đóng góp mang tính nền tảng         |
| 12 | Educational practice     | Phương pháp / Hoạt động giáo dục    |

## PART 3. EXERCISES

### Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

**Question 1:** The ability to \_\_\_\_\_ one's own emotions in childhood is essential for establishing strong social relationships later in life.

- A. curtail      B. regulate      C. extol      D. intervene

**Question 2:** Ancient philosophers like Plato often used to \_\_\_\_\_ the virtues of play as a vital tool for training future citizens.

- A. extol      B. curtail      C. regulate      D. intervene

**Question 3:** Opportunities for outdoor recreation are becoming increasingly \_\_\_\_\_ in heavily populated urban spaces.

- A. adaptable      B. instructional      C. scarce      D. trivial

**Question 4:** Concerns over urban traffic safety frequently \_\_\_\_\_ children's freedom to engage in unsupervised outdoor activities.

- A. facilitate      B. underpin      C. extol      D. curtail

**Question 5:** Early childhood pretend games help \_\_\_\_\_ complex cognitive skills that children rely on throughout adulthood.

- A. underpin      B. intervene      C. regulate      D. curtail

### Exercise 2: Choose the correct collocation.

**Question 6:** Studies demonstrate that self-control in early childhood serves as a powerful predictor of future \_\_\_\_\_.

- A. scientific reasoning      B. academic performance  
C. intellectual debate      D. primary school teacher

**Question 7:** Observing children during \_\_\_\_\_ provides clinicians with unique clues regarding potential developmental issues.

- A. play-based learning      B. intellectual debate  
C. spontaneous play      D. academic performance

**Question 8:** Early educational reformers pushed for integrating \_\_\_\_\_ into kindergarten curricula rather than relying solely on direct instruction.

- A. play-based learning      B. scientific reasoning  
C. neurodevelopmental disorder      D. primary school teacher

**Question 9:** Humans have evolved into a \_\_\_\_\_ largely due to our capacity for creative problem-solving and flexible play.

- A. primary school teacher      B. neurodevelopmental disorder  
C. scientific reasoning      D. highly adaptable species

**Question 10:** Early observations of play behavior can assist pediatric specialists in the early diagnosis of a \_\_\_\_\_.

- A. neurodevelopmental disorder      B. play-based learning  
C. long-term impact      D. highly adaptable species

### Exercise 3: Complete the sentences

**Question 11:** Providing children with a creative \_\_\_\_\_ such as story toys led to significantly richer writing output than direct instruction.

- A. disorder      B. backwater      C. stimulus      D. controversy

**Question 12:** Fifty years ago, early years education was treated as a quiet \_\_\_\_\_, largely ignored by academic researchers.

- A. stimulus      B. backwater      C. predictor      D. diagnosis

**Question 13:** Public policies regarding school entrance age have sparked intense \_\_\_\_\_ among educators and parents alike.

- A. controversy      B. pretense      C. virtue      D. implication

**Question 14:** Modern society wrongly dismisses play as something \_\_\_\_\_ rather than a vital component of intellectual growth.

- A. fundamental      B. spontaneous      C. trivial      D. mindful

**Question 15:** Creative play makes a \_\_\_\_\_ contribution to human advancements in art, science, and technology.

- A. scarce      B. fundamental      C. trivial      D. instructional

### Exercise 4: Choose the best answer.

**Question 16:** The word **repercussio** is closest in meaning to:

- A. origin      B. intention      C. consequence      D. rule

**Question 17:** The word **facilitate** is closest in meaning to:

- A. prevent      B. promote      C. delay      D. evaluate

**Question 18:** The word **spontaneous** is closest in meaning to:

- A. planned      B. forced      C. rigid      D. unplanned

**Question 19:** The word **curtail** is closest in meaning to:

- A. restrict      B. expand      C. encourage      D. observe

**Question 20:** The word **extol** is closest in meaning to:

- A. criticize      B. praise      C. ignore      D. challenge

## Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| B  | A  | C  | D  | A  | B  | C  | A  | D  | A  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| C  | B  | A  | C  | B  | C  | B  | D  | A  | B  |

## CAM 14 - TEST 1 - READING PASSAGE 2

### The Growth of Bike-Sharing Schemes Around the World

Topic: Urban Planning • Transport • Environmental Sustainability • Innovation

#### PART 1. VOCABULARY

| STT | Vocabulary   | POS | IPA               | Meaning                                    | Synonyms                            |
|-----|--------------|-----|-------------------|--------------------------------------------|-------------------------------------|
| 1   | perceive     | v   | /pə'si:v/         | nhận thức, nhìn nhận                       | notice, regard, sense               |
| 2   | consumerism  | n   | /kən'sju:mərɪzəm/ | chủ nghĩa tiêu dùng                        | commercialism, materialism          |
| 3   | distribute   | v   | /dɪ'strɪbjʊ:t/    | phân phát, phân phối                       | hand out, allocate, disperse        |
| 4   | elaborate    | adj | /ɪ'læbəreɪt/      | tỉ mỉ, phức tạp, công phu                  | detailed, intricate, complex        |
| 5   | municipality | n   | /mju:nɪsɪ'pæləti/ | chính quyền đô thị / thành phố             | local government, civic authority   |
| 6   | unanimously  | adv | /ju'nænɪməsli/    | nhất trí, đồng lòng 100%                   | without exception, with one voice   |
| 7   | discourage   | v   | /dɪs'kʌrɪdʒ/      | làm nản lòng, nhụt chí                     | dishearten, deter, demoralize       |
| 8   | deposit      | n/v | /dɪ'pɒzɪt/        | tiền đặt cọc, gửi tiền                     | pledge, security payment            |
| 9   | conscious    | adj | /'kɒnʃəs/         | có ý thức, nhận thức rõ                    | aware, mindful, deliberate          |
| 10  | conspicuous  | adj | /kən'spɪkjʊəs/    | nổi bật, dễ thấy                           | prominent, noticeable, eye-catching |
| 11  | sturdy       | adj | /'stɜ:di/         | chắc chắn, bền bỉ                          | robust, strong, durable             |
| 12  | rack         | n   | /ræk/             | giá để, kệ treo (xe đạp)                   | frame, stand, holder                |
| 13  | prone to     | adj | /prəʊn tu:/       | dễ bị, có xu hướng bị (ảnh hưởng tiêu cực) | susceptible to, vulnerable to       |
| 14  | vandalism    | n   | /'vændəlɪzəm/     | hành vi phá hoại tài sản công              | defacement, destruction             |

|    |             |     |                |                                  |                                    |
|----|-------------|-----|----------------|----------------------------------|------------------------------------|
| 15 | abolish     | v   | /ə'bɒlɪʃ/      | hủy bỏ, bãi bỏ (luật/hệ thống)   | eliminate, cancel, annul           |
| 16 | profitable  | adj | /'prɒfɪtəbl/   | có lợi nhuận, sinh lời           | lucrative, gainful, rewarding      |
| 17 | pivotal     | adj | /'pɪvətl/      | có tính then chốt, cốt lõi       | crucial, essential, central        |
| 18 | decisive    | adj | /dɪ'saɪsɪv/    | mang tính quyết định             | critical, definitive, conclusive   |
| 19 | boast       | v   | /bəʊst/        | sở hữu (điều tự hào), khoe       | possess, feature, pride oneself on |
| 20 | model on    | v   | /'mɒdl ɒn/     | làm theo mô hình của, nhại theo  | base on, pattern after             |
| 21 | patent      | n/v | /'peɪnt/       | bằng sáng chế, đăng ký bản quyền | copyright, intellectual property   |
| 22 | additional  | adj | /ə'dɪʃənəl/    | bổ sung, thêm vào                | extra, supplementary, further      |
| 23 | destination | n   | /,destɪ'neɪʃn/ | điểm đến                         | arrival point, goal                |
| 24 | optimistic  | adj | /'ɒptɪ'mɪstɪk/ | lạc quan                         | hopeful, positive, confident       |
| 25 | mentality   | n   | /men'tæləti/   | tư duy, tâm lý                   | mindset, outlook, attitude         |

## PART 2. COLLOCATIONS

| STT | Collocation               | Meaning                               |
|-----|---------------------------|---------------------------------------|
| 1   | Bike-sharing scheme       | Hệ thống chia sẻ xe đạp đô thị        |
| 2   | Air pollution             | Ô nhiễm không khí                     |
| 3   | Environmentally conscious | Có ý thức về môi trường               |
| 4   | Public transport          | Phương tiện giao thông công cộng      |
| 5   | City council              | Hội đồng thành phố                    |
| 6   | Get off the ground        | Khởi công, bắt đầu vận hành trôi chảy |
| 7   | Pivotal role              | Vai trò then chốt                     |

|    |                        |                                |
|----|------------------------|--------------------------------|
| 8  | Business partner       | Đối tác kinh doanh             |
| 9  | Decisive moment        | Thời điểm mang tính quyết định |
| 10 | File for a patent      | Nộp đơn xin cấp bằng sáng chế  |
| 11 | Cycle-friendly capital | Thủ đô thân thiện với xe đạp   |
| 12 | Final destination      | Điểm đến cuối cùng             |

## PART 3. EXERCISES

### Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.

**Question 1:** The primary objective of the early activists was to combat worsening \_\_\_\_\_ caused by heavy automobile traffic.

- A. business partner      B. air pollution  
C. final destination      D. decisive moment

**Question 2:** Although the initial proposal was sound, the project struggled to \_\_\_\_\_ due to strong resistance from local authorities.

- A. file for a patent      B. get off the ground  
C. public transport      D. city council

**Question 3:** Schimmelpennink presented a detailed proposal to the \_\_\_\_\_, demonstrating how cycling could save public funds.

- A. decisive moment      B. business partner      C. city council      D. air pollution

**Question 4:** During the 1990s, citizens became significantly more \_\_\_\_\_ and eager to adopt greener commuting options.

- A. environmentally conscious      B. cycle-friendly capital  
C. final destination      D. pivotal role

**Question 5:** The electronic payment card played a \_\_\_\_\_ in securing access to the bikes and preventing unauthorized use.

- A. final destination      B. decisive moment  
C. business partner      D. pivotal role

### Exercise 2: Choose the correct collocation.

**Question 6:** When the financial sponsor lost interest, the project lacked the funding from a reliable \_\_\_\_\_ to continue operating.

- A. air pollution      B. business partner  
C. cycle-friendly capital      D. file for a patent

**Question 7:** The massive expansion of the Paris system in 2007 marked a \_\_\_\_\_ in the global history of urban transport.

- A. decisive moment      B. public transport  
C. final destination      D. bike-sharing scheme

**Question 8:** The inventor missed out on immense financial wealth because he chose not to \_\_\_\_\_ for his original design.

- A. get off the ground      B. city council  
C. file for a patent      D. environmentally conscious

**Question 9:** Amsterdam has long been celebrated as a world-renowned \_\_\_\_\_, boasting extensive cycling infrastructure.

- A. business partner      B. decisive moment  
C. air pollution      D. cycle-friendly capital

**Question 10:** Commuters often require an extra mode of transit to complete the last leg of their journey to their \_\_\_\_\_.

- A. final destination      B. pivotal role  
C. public transport      D. city council

**Exercise 3: Complete the sentences.**

**Question 11:** The initial batch of white bicycles was highly \_\_\_\_\_ to theft and malicious damage due to lack of locks.

- A. additional      B. sturdy      C. prone to      D. elaborate

**Question 12:** To prevent damage from frequent outdoor use, the newly deployed bicycles were built to be extremely \_\_\_\_\_.

- A. sturdy      B. optimistic      C. prone to      D. conscious

**Question 13:** The local municipality voted \_\_\_\_\_ to reject the first proposal, viewing cars as the only future of transport.

- A. conspicuously      B. elaborately      C. profitlessly      D. unanimously

**Question 14:** When the bank decided to \_\_\_\_\_ the card system, the entire bike-share scheme collapsed overnight.

- A. abolish      B. boast      C. deposit      D. distribute

**Question 15:** Today, urban residents have shifted their \_\_\_\_\_ away from car ownership toward shared, sustainable transit.

- A. vandalism      B. mentality      C. deposit      D. rack

**Exercise 4: Choose the best answer.**

**Question 16:** The word **perceive** is closest in meaning to:

- A. ignore      B. create      C. regard      D. reject

**Question 17:** The word **vandalism** is closest in meaning to:

- A. deliberate destruction      B. routine maintenance  
C. public donation      D. rapid expansion

**Question 18:** The word **boast** is closest in meaning to:

- A. lack      B. conceal      C. demand      D. feature

**Question 19:** The word **conspicuous** is closest in meaning to:

- A. noticeable      B. hidden      C. fragile      D. expensive

**Question 20:** The word **sturdy** is closest in meaning to:

- A. heavy      B. durable      C. cheap      D. simple

**Answer Key**

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| B  | B  | C  | A  | D  | B  | A  | C  | D  | A  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| C  | A  | D  | A  | B  | C  | A  | D  | A  | B  |

| 10 | Organizational goals   | Các mục tiêu của tổ chức / doanh nghiệp |
| 11 | Job satisfaction       | Sự thỏa mãn trong công việc             |
| 12 | Work-life balance      | Cân bằng giữa công việc và cuộc sống    |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Providing adequate financial compensation alone is often insufficient to reduce high employee \_\_\_\_\_ in the service sector.

- A. retention      B. turnover      C. dichotomy      D. perception

**Question 2:** HR managers must strive to maintain a \_\_\_\_\_ between enforcing work discipline and granting employees workplace autonomy.

- A. delicate balance      B. competitive advantage  
C. superior performance      D. high employee turnover

**Question 3:** Investing in continuous professional development allows luxury hotels to gain a distinct \_\_\_\_\_ over rival chains.

- A. work-life balance      C. competitive advantage  
B. constructive relation      D. organizational goal

**Question 4:** A clear \_\_\_\_\_ exists between the lavish standards provided to hotel guests and the poor conditions faced by back-of-house staff.

- A. ingredient      B. obligation      C. obstacle      D. dichotomy

**Question 5:** Supportive leadership creates a positive work culture that helps \_\_\_\_\_ healthy relationships between staff and management.

- A. foster      B. retain      C. align      D. frame

**Exercise 2: Choose the correct collocation.**

**Question 6:** Studies show that praise and personal achievement are core drivers of \_\_\_\_\_, driving staff to excel voluntarily.

- A. extrinsic motivation      B. intrinsic motivation  
C. high employee turnover      D. working conditions

**Question 7:** Flexible working hours and family-friendly events are effective measures to promote a healthy \_\_\_\_\_.

- A. competitive advantage      C. delicate balance  
B. work-life balance      D. organizational goal

**Question 8:** When employees feel valued by their supervisors, their level of overall \_\_\_\_\_ increases significantly.

- A. job satisfaction      B. high employee turnover  
C. extrinsic motivation      D. competitive advantage

**Question 9:** Fun activities in the workplace must be carefully structured to ensure they align directly with broad \_\_\_\_\_.

- A. working conditions      B. intrinsic motivation  
C. employee retention      D. organizational goals

**Question 10:** Addressing basic health and safety needs improves general \_\_\_\_\_, though it may not automatically inspire high enthusiasm.

- A. intrinsic motivation      B. job satisfaction  
C. working conditions      D. delicate balance

**Exercise 3: Complete the sentences.**

**Question 11:** The researcher \_\_\_\_\_ summarized the findings, stating that employee support directly boosts organizational commitment.

- A. delicately      B. inherently      C. succinctly      D. favorably

**Question 12:** Low wages and lack of career advancement opportunities severely compromise staff \_\_\_\_\_ across the hospitality industry.

- A. morale      B. obstacle      C. dichotomy      D. ingredient

**Question 13:** Effective management involves identifying and removing any operational \_\_\_\_\_ that prevents staff from performing efficiently.

- A. retention      B. predisposition      C. obstacle      D. compensation

**Question 14:** Salary, bonuses, and job security are classic examples of \_\_\_\_\_ factors that prevent workplace dissatisfaction.

- A. intrinsic      B. extrinsic      C. delicate      D. competent

**Question 15:** To succeed in a competitive market, companies must recruit highly \_\_\_\_\_ workers who possess specialized skills.

- A. favorable      B. competent      C. inherent      D. underlying

**Exercise 4: Choose the best answer.**

**Question 16:** The word **succinctly** is closest in meaning to:

- A. vaguely      B. elaborately      C. concisely      D. repeatedly

**Question 17:** The word **foster** is closest in meaning to:

- A. suppress      B. promote      C. evaluate      D. neglect

**Question 18:** The word **predisposition** is closest in meaning to:

- A. inclination      B. refusal      C. ignorance      D. hesitation

**Question 19:** The word **competent** is closest in meaning to:

- A. inexperienced      B. reluctant      C. arrogant      D. capable

**Question 20:** The word **dichotomy** is closest in meaning to:

- A. agreement      B. similarity      C. contrast      D. combination

## Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| B  | A  | C  | D  | A  | B  | B  | A  | D  | C  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| C  | A  | C  | B  | B  | C  | B  | A  | D  | C  |

| 14 | lethal     | adj   | /'li:θl/       | gây chết người, nguy hiểm               | deadly, fatal               |
| 15 | miasma     | n     | /mi'æzmə/      | chướng khí, độc khí (theo quan niệm cũ) | toxic air, foul vapor       |
| 16 | epidemic   | n     | /,epɪ'demɪk/   | dịch bệnh                               | outbreak, plague, contagion |
| 17 | prosperous | adj   | /'prɒspərəs/   | giàu có, thịnh vượng                    | wealthy, affluent           |
| 18 | advocate   | v     | /'ædvəkeɪt/    | ủng hộ, tán thành                       | promote, support, champion  |
| 19 | legacy     | n     | /'legəsi/      | di sản, tài sản kế thừa                 | heritage, bequest           |
| 20 | liability  | n     | /'laɪə'bɪləti/ | gánh nặng, khoản nợ / rủi ro            | burden, drawback, handicap  |
| 21 | hybrid     | adj/n | /'haɪbrɪd/     | hỗn hợp, lai tạo                        | composite, mixed            |
| 22 | harsh      | adj   | /hɑ:ʃ/         | khắc nghiệt                             | severe, extreme, rigorous   |
| 23 | mild       | adj   | /maɪld/        | ôn hòa, dịu nhẹ                         | moderate, temperate         |
| 24 | reimagine  | v     | /,ri:ɪ'mædʒɪn/ | tái tưởng tượng, hình dung lại          | rethink, reinvent           |
| 25 | outlook    | n     | /'aʊtlʊk/      | quan điểm, cách nhìn nhận               | perspective, viewpoint      |

## PART 2. COLLOCATIONS

| STT | Collocation         | Meaning                     |
|-----|---------------------|-----------------------------|
| 1   | Natural ventilation | Hệ thống thông gió tự nhiên |
| 2   | Air conditioning    | Hệ thống điều hòa không khí |
| 3   | Carbon emissions    | Lượng khí thải cacbon       |
| 4   | Electricity usage   | Mức tiêu thụ điện năng      |
| 5   | Life support system | Hệ thống duy trì sự sống    |

|    |                   |                                                |
|----|-------------------|------------------------------------------------|
| 6  | Operating theatre | Phòng phẫu thuật bệnh viện                     |
| 7  | Communal ward     | Phòng bệnh chung                               |
| 8  | Hospital fever    | Bệnh sốt bệnh viện (do chướng khí/nhiễm trùng) |
| 9  | Passive cooling   | Làm mát thụ động (không dùng năng lượng)       |
| 10 | Climate modelling | Mô hình hóa khí hậu                            |
| 11 | Energy price rise | Sự gia tăng giá năng lượng                     |
| 12 | Rich legacy       | Di sản phong phú                               |

### PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Many modern glass towers require constant artificial cooling to remain fully \_\_\_\_\_ during hot summer months.

- A. communal      B. harsh      C. habitable      D. lethal

**Question 2:** Relying exclusively on mechanical cooling causes cities to \_\_\_\_\_ massive amounts of electricity every year.

- A. lament      B. squander      C. clamour      D. contend

**Question 3:** Historical architects created \_\_\_\_\_ building layouts that utilized natural airflow to prevent the spread of airborne disease.

- A. lethal      B. harsh      C. ingenious      D. communal

**Question 4:** Professor Short strongly advocates a return to passive cooling principles to reduce harmful \_\_\_\_\_ worldwide.

- A. carbon emissions      B. operating theatre  
C. life support system      D. hospital fever

**Question 5:** High energy consumption in sealed skyscrapers will soon turn them into a major financial \_\_\_\_\_ for city owners.

- A. legacy      B. outlook      C. pathogen      D. liability

**Exercise 2: Choose the correct collocation.**

**Question 6:** Traditional designs prioritize \_\_\_\_\_ over mechanical systems to maintain fresh indoor airflow naturally.

- A. air conditioning      B. natural ventilation  
C. hospital fever      D. life support system

**Question 7:** Sealed high-rises rely on artificial air systems acting as a synthetic \_\_\_\_\_ to keep indoor spaces breathable.

- A. life support system      B. operating theatre  
C. communal ward      D. rich legacy

**Question 8:** Historical hospitals achieved rapid air changes comparable to the performance of a high-tech modern \_\_\_\_\_.

- A. energy price rise      B. climate modelling  
C. operating theatre      D. carbon emission

**Question 9:** The building relies on shadow orientation and natural draft chimneys to achieve effective \_\_\_\_\_ without powered chillers.

- A. air conditioning      B. passive cooling  
C. energy price rise      D. life support system

**Question 10:** Modern architects are encouraged to study the \_\_\_\_\_ left by 19th-century builders who mastered low-energy ventilation.

- A. rich legacy      B. hospital fever  
C. communal ward      D. electricity usage

**Exercise 3: Complete the sentences.**

**Question 11:** Before germ theory was established, people feared that breathing toxic \_\_\_\_\_ was the main source of deadly infections.

- A. miasma      B. pathogen      C. liability      D. culmination

**Question 12:** To reduce dependence on pure mechanical cooling, researchers developed a \_\_\_\_\_ system that combines natural drafts with back-up air conditioning.

- A. sweeping      B. hybrid      C. prosperous      D. relentless

**Question 13:** Architects must \_\_\_\_\_ their approach to urban development as global energy costs continue to escalate rapidly.

- A. clamour      B. squander      C. reimagine      D. lament

**Question 14:** In the 1800s, panic-stricken citizens began to \_\_\_\_\_ for public health reform and healthier urban buildings.

- A. clamour      B. accommodate      C. contend      D. advocate

**Question 15:** Computer simulations showed that proper air movement prevented harmful \_\_\_\_\_ from accumulating in shared rooms.

- A. miasma      B. pathogens      C. legacies      D. liabilities

**Exercise 4: Choose the best answer.**

**Question 16:** The word **culmination** is closest in meaning to:

- A. initiation      B. pinnacle      C. failure      D. disruption

**Question 17:** The word **squander** is closest in meaning to:

- A. conserve      B. generate      C. waste      D. store

**Question 18:** The word **lethal** is closest in meaning to:

- A. mild      B. harmless      C. beneficial      D. fatal

**Question 19:** The word **lament** is closest in meaning to:

- A. celebrate      B. mourn      C. ignore      D. approve

**Question 20:** The word **prosperous** is closest in meaning to:

- A. wealthy      B. diseased      C. poor      D. cautious

**Answer Key**

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| C  | B  | C  | A  | D  | B  | A  | C  | B  | A  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| A  | B  | C  | A  | B  | B  | C  | D  | B  | A  |

## WHY COMPANIES SHOULD WELCOME DISORDER

Topic: Business Management • Productivity • Innovation

### PART 1. VOCABULARY

| STT | Vocabulary       | POS  | IPA                | Meaning                            | Synonyms                          |
|-----|------------------|------|--------------------|------------------------------------|-----------------------------------|
| 1   | rhetoric         | n    | /ˈretərɪk/         | lời nói suông, thuật hùng biện     | oratory, hyperbole, talk          |
| 2   | creep into       | v    | /kri:p ˈɪntuː/     | len lỏi vào, thâm nhập từ từ       | infiltrate, seep into, sneak into |
| 3   | self-proclaimed  | adj  | /ˌself prəˈkleɪmd/ | tự xưng, tự nhận                   | self-styled, so-called            |
| 4   | beg the question | v    | /beg ðə ˈkwestʃən/ | dấy lên câu hỏi, đặt ra nghi vấn   | raise the question, prompt        |
| 5   | fall short of    | v    | /fɔ:l ʃɔ:t əv/     | không đạt tới kỳ vọng / tiêu chuẩn | fail to reach, disappoint         |
| 6   | forefather       | n    | /ˈfɔ:fɑ:ðə/        | người đặt nền móng, tổ tiên        | pioneer, founder, predecessor     |
| 7   | widespread       | adj  | /ˈwaɪdspred/       | phổ biến, rộng khắp                | extensive, prevalent, common      |
| 8   | obsession        | n    | /əbˈseɪʃn/         | sự ám ảnh, nỗi mê muội             | fixation, preoccupation           |
| 9   | misguided        | adj  | /ˌmɪsˈgaɪdɪd/      | sai lầm, bị dẫn dắt sai            | mistaken, misplaced, unwise       |
| 10  | assumption       | n    | /əˈsʌmpʃn/         | giả định, sự mặc định              | premise, belief, expectation      |
| 11  | detrimental      | adj  | /ˌdetrɪˈmentl/     | có hại, gây thiệt hại              | harmful, damaging, adverse        |
| 12  | for the sake of  | prep | /fə ðə seɪk əv/    | vì mục đích của, chỉ để cho        | to serve, for the purpose of      |

|    |                       |       |                          |                                 |                                  |
|----|-----------------------|-------|--------------------------|---------------------------------|----------------------------------|
| 13 | diminishing returns   | n     | /dɪˌmɪnɪʃɪŋ rɪˈtʃːnz/    | hiệu suất giảm dần              | declining yield/benefit          |
| 14 | outweigh              | v     | /ˌaʊtˈweɪ/               | vượt trội hơn, quan trọng hơn   | exceed, surpass, compensate for  |
| 15 | devoid of             | adj   | /dɪˈvɔɪd əv/             | hoàn toàn không có, trống rỗng  | lacking, free from, empty of     |
| 16 | hierarchy             | n     | /ˈhaɪəɹəːki/             | hệ thống phân cấp, thứ bậc      | ranking, order, pecking order    |
| 17 | bottleneck            | n     | /ˈbɒtlnek/               | điểm nghẽn, sự tắc nghẽn        | obstruction, barrier, hold-up    |
| 18 | embrace               | v     | /ɪmˈbreɪs/               | đón nhận, chấp nhận vui vẻ      | accept, welcome, adopt           |
| 19 | rigid                 | adj   | /ˈrɪdʒɪd/                | cứng nhắc, không linh hoạt      | inflexible, strict, unyielding   |
| 20 | facet                 | n     | /ˈfæsɪt/                 | khía cạnh, mặt                  | aspect, side, feature            |
| 21 | boundaryless          | adj   | /ˈbaʊndərɪləs/           | không biên giới, không rào cản  | open, limit-free, unstructured   |
| 22 | facilitate            | v     | /fəˈsɪlɪteɪt/            | tạo điều kiện thuận lợi, hỗ trợ | enable, assist, promote          |
| 23 | jump on the bandwagon | idiom | /dʒʌmp ɒn ðə ˈbændwæɡən/ | chạy theo phong trào / xu hướng | follow the trend, join the crowd |
| 24 | venerate              | v     | /ˈvenərəɪt/              | tôn sùng, sùng bái              | revere, worship, respect highly  |
| 25 | utility               | n     | /juːˈtɪləti/             | hữu ích, giá trị sử dụng        | usefulness, value, benefit       |

## PART 2. COLLOCATIONS

| STT | Collocation           | Meaning                              |
|-----|-----------------------|--------------------------------------|
| 1   | Scientific management | Quản trị theo phương pháp khoa học   |
| 2   | Diminishing returns   | Quy luật hiệu suất giảm dần          |
| 3   | Work-related stress   | Căng thẳng do công việc              |
| 4   | Organic group         | Nhóm vận hành tự nhiên (không gò bó) |

|    |                               |                                |
|----|-------------------------------|--------------------------------|
| 5  | Rigid hierarchy               | Hệ thống phân cấp cứng nhắc    |
| 6  | Virtual collaboration         | Sự hợp tác qua không gian mạng |
| 7  | Self-proclaimed perfectionist | Người tự nhận là hoàn hảo      |
| 8  | Flexible working              | Làm việc linh hoạt             |
| 9  | Information flow              | Dòng chảy thông tin            |
| 10 | Basic assumption              | Giả định cơ bản                |
| 11 | End goal                      | Mục tiêu cuối cùng             |
| 12 | Detrimental effect            | Tác động có hại                |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Many companies blindly organize their processes just \_\_\_\_\_ organizing, rather than evaluating whether it yields real value.

A. for the sake of      B. devoid of      C. in spite of      D. in light of

**Question 2:** Excessive reliance on strict rules can have a highly \_\_\_\_\_ impact on creative problem-solving within teams.

A. beneficial      B. flexible      C. organic      D. detrimental

**Question 3:** Modern research reveals that pushing structure to an extreme eventually leads to \_\_\_\_\_, reducing overall output.

A. scientific management      B. virtual collaboration  
C. diminishing returns      D. rigid hierarchy

**Question 4:** Oticon successfully boosted innovation by abandoning formal job titles and removing its traditional \_\_\_\_\_.

A. end goal      B. rigid hierarchy  
C. information flow      D. basic assumption

**Question 5:** Leaders who blindly \_\_\_\_\_ without assessing their firm's unique culture often experience unexpected operational failures.

A. venerate order      B. create bottlenecks  
C. beg the question      D. jump on the bandwagon

**Exercise 2: Choose the correct collocation.**

**Question 6:** Frederick Taylor introduced the principles of \_\_\_\_\_, which focused heavily on maximizing task efficiency in factories.

A. virtual collaboration      B. scientific management  
C. flexible working      D. organic group

**Question 7:** Complex approval chains often create a severe \_\_\_\_\_ that slows down communication across departments.

A. bottleneck      B. forefather      C. rhetoric      D. utility

**Question 8:** When the financial cost of implementing a new management structure \_\_\_\_\_ its actual benefit, the plan should be abandoned.

A. facilitates      B. venerates      C. outweighs      D. embraces

**Question 9:** A growing number of modern tech startups actively choose to \_\_\_\_\_ disorder as a catalyst for breakthrough ideas.

- A. fall short of      B. creep into      C. beg the question      D. embrace

**Question 10:** To foster creative breakthroughs, innovative teams need environments that are completely \_\_\_\_\_ restrictive rules.

- A. detrimental to      B. misguided by      C. widespread in      D. devoid of

### Exercise 3: Complete the sentences

**Question 11:** The idea that total order is mandatory for high productivity is a deeply rooted but flawed \_\_\_\_\_.

- A. assumption      B. rhetoric      C. hierarchy      D. utility

**Question 12:** Despite implementing numerous efficiency programs, many corporate initiatives still \_\_\_\_\_ expected results.

- A. jump on      B. fall short of      C. creep into      D. devoid of

**Question 13:** While structure has its merits, business experts warn that managers should not blindly \_\_\_\_\_ one approach over another.

- A. facilitate      B. venerate      C. embrace      D. outweigh

**Question 14:** Modern digital tools have made it far easier to \_\_\_\_\_ fluid communication and remote teamwork across continents.

- A. venerate      B. outweigh      C. facilitate      D. creep into

**Question 15:** Unrealistic workloads and rigid corporate environments are primary drivers of widespread \_\_\_\_\_.

- A. virtual collaboration      B. scientific management  
C. organic group      D. work-related stress

### Exercise 4: Choose the best answer.

**Question 16:** The word **detrimental** is closest in meaning to:

- A. advantageous      B. essential      C. complex      D. harmful

**Question 17:** The word **misguided** is closest in meaning to:

- A. well-planned      B. successful      C. mistaken      D. logical

**Question 18:** The word **venerate** is closest in meaning to:

- A. criticize      B. revere      C. abandon      D. inspect

**Question 19:** The word **devoid of** is closest in meaning to:

- A. filled with      B. reliant on      C. supportive of      D. lacking in

**Question 20:** The word **utility** is closest in meaning to:

- A. cost      B. structure      C. usefulness      D. popularity

## Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| A  | D  | C  | B  | D  | B  | A  | C  | D  | D  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| A  | B  | B  | C  | D  | A  | A  | B  | C  | C  |

## THE CONCEPT OF INTELLIGENCE

Topic: Educational Psychology • Cognitive Science • Human Intelligence

### PART 1. VOCABULARY

| STT | Vocabulary       | POS   | IPA               | Meaning                             | Synonyms                        |
|-----|------------------|-------|-------------------|-------------------------------------|---------------------------------|
| 1   | implicit         | adj   | /ɪmˈplɪsɪt/       | ngầm, ẩn ý, không nói ra trực tiếp  | tacit, unspoken, implied        |
| 2   | explicit         | adj   | /ɪkˈsplɪsɪt/      | rõ ràng, dứt khoát, công khai       | overt, clear, direct            |
| 3   | conceptualize    | v     | /kənˈseptʃuəlaɪz/ | khái niệm hóa, hình thành nhận thức | formulate, imagine, perceive    |
| 4   | judgment         | n     | /ˈdʒʌdʒmənt/      | sự đánh giá, phán đoán              | assessment, evaluation          |
| 5   | scope            | n     | /skəʊp/           | phạm vi, tầm hạn                    | extent, range, reach            |
| 6   | correspondence   | n     | /ˌkɒrəˈspɒndəns/  | sự tương đồng, sự phù hợp           | agreement, match, similarity    |
| 7   | extant           | adj   | /ekˈstænt/        | hiện có, hiện còn tồn tại           | existing, present, surviving    |
| 8   | supplementation  | n     | /ˌsʌplɪmenˈteɪʃn/ | sự bổ sung                          | addition, reinforcement         |
| 9   | elucidate        | v     | /ɪˈluːsɪdeɪt/     | làm sáng tỏ, giải thích rõ          | clarify, explain, shed light on |
| 10  | statesman        | n     | /ˈsteɪtsmən/      | nhà chính trị có tầm ảnh hưởng      | politician, leader              |
| 11  | elite            | n/adj | /eɪˈliːt/         | tầng lớp tinh hoa, ưu tú            | aristocracy, upper class        |
| 12  | chaos            | n     | /ˈkeɪɒs/          | sự hỗn loạn, vô trật tự             | disorder, confusion, turmoil    |
| 13  | avail oneself of | v     | /əˈveɪl/          | tận dụng, khai thác (cơ hội)        | take advantage of, utilize      |

|    |                    |     |                        |                            |                               |
|----|--------------------|-----|------------------------|----------------------------|-------------------------------|
| 14 | accomplishment     | n   | /ə'kʌmplɪʃmənt/        | thành tựu, sự hoàn thành   | achievement, fulfillment      |
| 15 | favor              | v   | /'feɪvə/               | thiên vị, ưu ái            | prefer, support, show bias to |
| 16 | foster             | v   | /'fɒstə/               | nuôi dưỡng, thúc đẩy       | encourage, nurture, promote   |
| 17 | competency         | n   | /'kɒmpɪtənsi/          | năng lực, khả năng         | ability, capability, skill    |
| 18 | intersubstitutable | adj | /'ɪntəsʌbstɪ'tʃu:təbl/ | có thể thay thế cho nhau   | interchangeable, equivalent   |
| 19 | presupposition     | n   | /'pri:sʌpə'zɪʃn/       | sự giả định trước, tiên đề | assumption, premise           |
| 20 | notion             | n   | /'nəʊʃn/               | khái niệm, ý niệm          | concept, idea, belief         |
| 21 | elucidate          | v   | /'ɪlu:sɪdeɪt/          | làm rõ, giải thích         | clarify, expound              |
| 22 | philosophical      | adj | /'fɪlə'sɒfɪkl/         | thuộc về triết học         | theoretical, rational         |
| 23 | irresponsible      | adj | /'ɪrɪ'spɒnsəbl/        | vô trách nhiệm             | reckless, careless            |
| 24 | cognitive          | adj | /'kɒɡnətɪv/            | thuộc về nhận thức         | mental, intellectual          |
| 25 | specialized        | adj | /'speʃəlaɪzd/          | chuyên môn hóa, đặc thù    | technical, specific           |

## PART 2. COLLOCATIONS

| STT | Collocation                | Meaning                                                  |
|-----|----------------------------|----------------------------------------------------------|
| 1   | Implicit theory            | Lý thuyết ngầm (nhận thức tự phát/không chính thức)      |
| 2   | Explicit theory            | Lý thuyết rõ ràng (được nghiên cứu/phát biểu chính thức) |
| 3   | Cognitive task             | Nhiệm vụ nhận thức / tư duy                              |
| 4   | Scientific investigator    | Nhà nghiên cứu khoa học                                  |
| 5   | Language development       | Sự phát triển ngôn ngữ                                   |
| 6   | Cross-cultural differences | Sự khác biệt giữa các nền văn hóa                        |
| 7   | High-IQ elite              | Tầng lớp tinh hoa có IQ cao                              |
| 8   | Equal opportunity          | Cơ hội bình đẳng / ngang nhau                            |

|    |                           |                                     |
|----|---------------------------|-------------------------------------|
| 9  | Specialized skills        | Kỹ năng chuyên môn                  |
| 10 | Scientific contribution   | Đóng góp khoa học                   |
| 11 | Underlying presupposition | Giả định / tiên đề cốt lõi bên dưới |
| 12 | Western-style schooling   | Giáo dục theo phong cách phương Tây |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** People often hold \_\_\_\_\_ theories of intelligence, which implicitly guide their daily decisions about others.

A. implicit    B. explicit    C. irresponsible    D. specialized

**Question 2:** If an existing hypothesis fails to explain new data, scientists must make corrections or seek appropriate \_\_\_\_\_.

A. chaos    B. scope    C. accomplishment    D. supplementation

**Question 3:** Studying how different societies view intellectual growth helps to \_\_\_\_\_ cultural variations in learning.

A. favor    B. foster    C. elucidate    D. conceptualize

**Question 4:** In the Jeffersonian educational view, schools should never aim to favor a privileged \_\_\_\_\_ over other students.

A. chaos    B. elite    C. correspondence    D. judgment

**Question 5:** Without clear organizational guidelines, complex social projects can easily devolve into utter \_\_\_\_\_.

A. competency    B. accomplishment    C. scope    D. chaos

**Exercise 2: Choose the correct collocation.**

**Question 6:** Parents evaluate their children's mental growth based on how they perform various \_\_\_\_\_ in daily life.

A. scientific contributions    B. cognitive tasks  
C. specialized skills    D. equal opportunities

**Question 7:** A principal objective of modern democratic education is guaranteeing \_\_\_\_\_ for every child regardless of background.

A. equal opportunity    B. high-IQ elite  
C. scientific investigator    D. implicit theory

**Question 8:** The Jacksonian viewpoint assumes that most human roles can be fulfilled by anyone equipped with basic \_\_\_\_\_.

A. cross-cultural differences    B. language developments  
C. specialized skills    D. explicit theories

**Question 9:** Researchers warning about unstated assumptions emphasize the importance of identifying every \_\_\_\_\_ in experimental design.

A. scientific contribution    B. high-IQ elite  
C. cognitive task    D. underlying presupposition

**Question 10:** Formulating clear formal definitions allows a \_\_\_\_\_ to construct valid empirical studies.

A. language development    B. cognitive task  
C. specialized skill    D. scientific investigator

### Exercise 3: Complete the sentences

**Question 11:** Children raised in traditional societies may develop cognitive abilities distinct from those in \_\_\_\_\_.

- A. Western-style schooling      B. high-IQ elite  
C. implicit theory      D. scientific contribution

**Question 12:** To succeed in competitive environments, individuals must actively \_\_\_\_\_ the educational resources around them.

- A. elucidate      B. avail themselves of      C. foster      D. conceptualize

**Question 13:** Effective mentorship programs strive to \_\_\_\_\_ raw intellectual talent rather than suppressing original thought.

- A. elucidate      B. foster      C. favor      D. conceptualize

**Question 14:** The belief that all individuals possess equal functional \_\_\_\_\_ forms the core of egalitarian philosophies.

- A. scope      B. chaos      C. competency      D. accomplishment

**Question 15:** Every participant in a democratic system is viewed as essentially \_\_\_\_\_ in terms of basic civic duties.

- A. extant      B. explicit      C. irresponsible      D. intersubstitutable

### Exercise 4: Choose the best answer.

**Question 16:** The word **implicit** is closest in meaning to:

- A. unspoken      B. clear      C. official      D. detailed

**Question 17:** The word **extant** is closest in meaning to:

- A. existing      B. outdated      C. false      D. future

**Question 18:** The word **elucidate** is closest in meaning to:

- A. complicate      B. clarify      C. conceal      D. disregard

**Question 19:** The word **correspondence** is closest in meaning to:

- A. disagreement      B. distance      C. similarity      D. dispute

**Question 20:** The word **presupposition** is closest in meaning to:

- A. result      B. proof      C. assumption      D. conclusion

### Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| A  | D  | C  | B  | D  | B  | A  | C  | D  | D  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| A  | B  | B  | C  | D  | A  | A  | B  | C  | C  |

## CAM 14 - TEST 3 - READING PASSAGE 2

### SAVING BUGS TO FIND NEW DRUGS

Topic: Natural Products • Pharmaceutical Research • Entomology • Conservation

#### PART 1. VOCABULARY

| STT | Vocabulary     | POS | IPA                  | Meaning                               | Synonyms                                   |
|-----|----------------|-----|----------------------|---------------------------------------|--------------------------------------------|
| 1   | derived from   | v   | /dɪˈraɪvd frəm/      | bắt nguồn từ, chiết xuất từ           | extracted from, originated from            |
| 2   | ailment        | n   | /ˈeɪlmənt/           | bệnh tật nhỏ/mãn tính                 | illness, disease, complaint                |
| 3   | parasite       | n   | /ˈpærəsart/          | ký sinh trùng                         | organism living on a host                  |
| 4   | hurdle         | n   | /ˈhɜːdl/             | rào cản, trở ngại                     | obstacle, barrier, impediment              |
| 5   | bioprospecting | n   | /ˌbaɪəʊprəˈs pektɪŋ/ | việc tìm kiếm hợp chất sinh học       | searching for natural biological compounds |
| 6   | undisputed     | adj | /ˌʌndɪˈspjuːtɪd/     | không thể tranh cãi, chưa ai vượt qua | acknowledged, accepted, unquestioned       |
| 7   | terrestrial    | adj | /təˈrestriəl/        | trên cạn, sống trên mặt đất           | land-based, ground-dwelling                |
| 8   | niche          | n   | /niːʃ/               | hốc sinh thái, vị trí thích hợp       | habitat role, position, slot               |
| 9   | array          | n   | /əˈreɪ/              | số lượng lớn, sự đa dạng              | collection, assortment, range              |
| 10  | antimicrobial  | adj | /ˌæntɪmaɪˈkr əubiəl/ | kháng khuẩn, chống vi trùng           | antibacterial, germ-killing                |
| 11  | larva          | n   | /ˈlɑːvə/             | ấu trùng (dạng số nhiều: larvae)      | maggot, grub, caterpillar                  |
| 12  | potent         | adj | /ˈpəʊtnt/            | có lực/tác động mạnh mẽ               | powerful, strong, effective                |
| 13  | venom          | n   | /ˈvenəm/             | nọc độc (của động vật)                | poison, toxin                              |

|    |            |     |                |                             |                                       |
|----|------------|-----|----------------|-----------------------------|---------------------------------------|
| 14 | daunting   | adj | /ˈdɔːntɪŋ/     | làm nản lòng, thử thách lớn | intimidating, challenging, formidable |
| 15 | gland      | n   | /glænd/        | tuyến (tiết ra chất)        | secreting organ                       |
| 16 | secrete    | v   | /sɪˈkri:t/     | tiết ra (chất)              | produce, emit, release                |
| 17 | ubiquity   | n   | /juːˈbɪkwəti/  | sự phổ biến ở khắp nơi      | omnipresence, prevalence              |
| 18 | rear       | v   | /rɪə/          | nuôi dưỡng, nhân giống      | breed, raise, nurture                 |
| 19 | captivity  | n   | /kæpˈtɪvəti/   | tình trạng bị nuôi nhốt     | confinement, imprisonment             |
| 20 | subduing   | v   | /səbˈdjuːɪŋ/   | khống chế, khuất phục       | overpowering, conquering, suppressing |
| 21 | carcass    | n   | /ˈkɑːkəs/      | xác động vật                | dead body, corpse                     |
| 22 | pathogenic | adj | /ˌpæθəˈdʒenɪk/ | gây bệnh                    | disease-causing, infectious           |
| 23 | precedent  | n   | /ˈprezɪdənt/   | tiền lệ                     | prior example, model, pattern         |
| 24 | deprive    | v   | /dɪˈpraɪv/     | tước đoạt, làm mất đi       | rob, strip, dispossess                |
| 25 | pitfall    | n   | /ˈpɪtfɔːl/     | cạm bẫy, rủi ro ẩn giấu     | hazard, risk, trap                    |

## PART 2. COLLOCATIONS

| STT | Collocation           | Meaning                                   |
|-----|-----------------------|-------------------------------------------|
| 1   | Natural products      | Sản phẩm / Hợp chất thiên nhiên           |
| 2   | Antibiotic resistance | Sự kháng thuốc kháng sinh                 |
| 3   | Molecular diversity   | Sự đa dạng về phân tử                     |
| 4   | Terrestrial domain    | Môi trường / Vùng lãnh thổ trên cạn       |
| 5   | Therapeutic compound  | Hợp chất có đặc tính chữa bệnh / trị liệu |
| 6   | Antimicrobial agent   | Tác nhân kháng khuẩn                      |
| 7   | Filthy habitat        | Môi trường sống bẩn thỉu / ô nhiễm        |

|    |                         |                                               |
|----|-------------------------|-----------------------------------------------|
| 8  | Pathogenic bacteria     | Vi khuẩn gây bệnh                             |
| 9  | Groundbreaking medicine | Y học / Thuốc mang tính đột phá               |
| 10 | Conservation effort     | Nỗ lực bảo tồn                                |
| 11 | Significant hurdle      | Trở ngại / Rào cản đáng kể                    |
| 12 | Rear in captivity       | Nuôi nhốt / Nhân giống trong phòng thí nghiệm |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Many modern pharmaceuticals are directly \_\_\_\_\_ chemicals harvested from rare terrestrial plants and insects.

- A. derived from      B. deprived of      C. reared in      D. subdued by

**Question 2:** Collecting large volumes of rare insects presents a \_\_\_\_\_ to researchers seeking new drug ingredients.

- A. precedent      B. ubiquity      C. carcass      D. significant hurdle

**Question 3:** Rising rates of global \_\_\_\_\_ have forced pharmaceutical companies to search nature for new microbial treatments.

- A. natural products      B. conservation efforts  
C. antibiotic resistance      D. terrestrial domains

**Question 4:** Insects occupy nearly every available ecological \_\_\_\_\_ on earth due to their high adaptability.

- A. carcass      B. niche      C. pitfall      D. precedent

**Question 5:** Venom harvested from specific wasp species contains a surprisingly \_\_\_\_\_ agent capable of fighting cancer cells.

- A. pathogenic      B. daunting      C. ubiquitous      D. potent

**Exercise 2: Choose the correct collocation.**

**Question 6:** Developing a new drug from an insect-derived molecule is full of unexpected financial and logistical \_\_\_\_\_.

- A. precedents      B. pitfalls      C. larvae      D. niches

**Question 7:** Identifying promising molecules from millions of unstudied species remains an extraordinarily \_\_\_\_\_ task for bio-prospectors.

- A. daunting      B. therapeutic      C. terrestrial      D. undisputed

**Question 8:** Certain predatory wasps utilize strong neurotoxins for the primary purpose of \_\_\_\_\_ their prey.

- A. rearing      B. secreting      C. subduing      D. depriving

**Question 9:** Insects residing in decaying matter must continuously protect themselves against harmful, \_\_\_\_\_.

- A. therapeutic compounds      B. natural products  
C. conservation efforts      D. pathogenic bacteria

**Question 10:** Destroying pristine tropical rainforests will inevitably \_\_\_\_\_ future generations of priceless natural remedies.

- A. rear      B. secrete      C. subdue      D. deprive

### Exercise 3: Complete the sentences

**Question 11:** Organisms thriving in a dirty, \_\_\_\_\_ environment usually produce robust antibacterial defenses to survive.

- A. filthy habitat                      B. molecular diversity  
C. terrestrial domain                D. groundbreaking medicine

**Question 12:** Specialized cellular structure inside the organism functions as a tiny \_\_\_\_\_ to release protective chemicals.

- A. precedent                      B. gland                      C. carcass                      D. pitfall

**Question 13:** Many wild insect species are difficult to \_\_\_\_\_ because their precise breeding conditions remain unknown.

- A. deprive                      B. rear in captivity                      C. subdue                      D. derive from

**Question 14:** Exploring the medical value of rare creatures offers a powerful argument to support worldwide \_\_\_\_\_.

- A. antibiotic resistance                B. filthy habitats  
C. conservation efforts                D. pathogenic bacteria

**Question 15:** Insects are the \_\_\_\_\_ rulers of the land environment in terms of population count and species numbers.

- A. daunting                      B. potent                      C. pathogenic                      D. undisputed

### Exercise 4: Choose the best answer.

**Question 16:** The word **daunting** is closest in meaning to:

- A. intimidating                      B. pleasant                      C. effortless                      D. familiar

**Question 17:** The word **potent** is closest in meaning to:

- A. powerful                      B. harmless                      C. fragile                      D. inactive

**Question 18:** The word **subduing** is closest in meaning to:

- A. freeing                      B. overpowering                      C. nourishing                      D. observing

**Question 19:** The word **ubiquity** is closest in meaning to:

- A. scarcity                      B. isolation                      C. omnipresence                      D. weakness

**Question 20:** The word **deprive** is closest in meaning to:

- A. reward                      B. supply                      C. dispossess                      D. assist

### Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| A  | D  | C  | B  | D  | B  | A  | C  | D  | D  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| A  | B  | B  | C  | D  | A  | A  | B  | C  | C  |

## CAM 14 - TEST 3 - READING PASSAGE 3

### THE POWER OF PLAY

Topic: Child Development

#### PART 1. VOCABULARY

| STT | Vocabulary    | POS | IPA                 | Meaning                            | Synonyms                      |
|-----|---------------|-----|---------------------|------------------------------------|-------------------------------|
| 1   | instrumental  | adj | /ˌɪnstɹəˈmentl<br>/ | đóng vai trò then chốt/quan trọng  | crucial, essential, pivotal   |
| 2   | expound       | v   | /ɪkˈspaʊnd/         | giải thích/trình bày chi tiết      | explain, set forth, present   |
| 3   | dichotomy     | n   | /daɪˈkɒtəmi/        | sự phân đôi, sự đối lập            | division, contrast, split     |
| 4   | repertoire    | n   | /ˈrepətwaː/         | vốn/kho kỹ năng hoặc khả năng      | collection, stock, range      |
| 5   | consensus     | n   | /kənˈsensəs/        | sự đồng thuận, nhất trí            | agreement, harmony, accord    |
| 6   | elude         | v   | /ɪˈluːd/            | lẩn tránh, vượt khỏi tầm hiểu biết | evade, escape, baffle         |
| 7   | discrete      | adj | /dɪˈskri:t/         | riêng biệt, rời rạc                | distinct, separate, detached  |
| 8   | criterion     | n   | /kraɪˈtɪəriən/      | tiêu chuẩn (số nhiều: criteria)    | standard, benchmark, measure  |
| 9   | intrinsic     | adj | /ɪnˈtrɪnzɪk/        | nội tại, thuộc về bản chất         | inherent, innate, natural     |
| 10  | extrinsic     | adj | /ekˈstrɪnzɪk/       | bên ngoài, ngoại tại               | external, outward             |
| 11  | dispositional | adj | /ˌdɪspəˈzɪʃən<br>/  | thuộc về tính cách/tâm tính        | inclination-based, behavioral |
| 12  | continuum     | n   | /kənˈtɪnjuəm/       | chuỗi liên tục                     | spectrum, continuous series   |
| 13  | detriment     | n   | /ˈdetrɪmənt/        | sự tổn hại, thiệt hại              | damage, harm, impairment      |
| 14  | optimal       | adj | /ˈɒptɪml/           | tối ưu, tốt nhất                   | ideal, best, most favorable   |

|    |               |     |                  |                                    |                             |
|----|---------------|-----|------------------|------------------------------------|-----------------------------|
| 15 | robust        | adj | /rəʊ'bʌst/       | mạnh mẽ, vững chắc                 | strong, vigorous, resilient |
| 16 | facilitate    | v   | /fə'sɪlɪteɪt/    | tạo điều kiện, làm cho dễ dàng     | assist, ease, promote       |
| 17 | facet         | n   | /'fæsɪt/         | khía cạnh, mặt                     | aspect, side, feature       |
| 18 | autonomy      | n   | /ɔ:'tɒnəmi/      | sự tự chủ, quyền tự quyết          | independence, self-rule     |
| 19 | predominant   | adj | /prɪ'dɒmɪnənt/   | chiếm ưu thế, chủ đạo              | main, primary, dominant     |
| 20 | non-literal   | adj | /nɒn'liːtərəl/   | không theo nghĩa đen (tưởng tượng) | figurative, imaginative     |
| 21 | spontaneously | adv | /spɒn'teɪniəsli/ | một cách tự phát, tự nhiên         | impulsively, naturally      |
| 22 | purposeful    | adj | /'pɜ:pəsfl/      | có mục đích                        | intentional, deliberate     |
| 23 | counterpart   | n   | /'kaʊntəpɑ:t/    | bên tương ứng, đối tác             | equivalent, match           |
| 24 | presumption   | n   | /prɪ'zʌmpʃn/     | sự giả định, sự cho là             | assumption, belief          |
| 25 | fundamental   | adj | /'fʌndə'mentl/   | cơ bản, cốt lõi                    | basic, essential, primary   |

## PART 2. COLLOCATIONS

| STT | Collocation              | Meaning                                       |
|-----|--------------------------|-----------------------------------------------|
| 1   | Intrinsic motivation     | Động lực nội tại (xuất phát từ bản thân)      |
| 2   | False dichotomy          | Sự phân chia đối lập sai lầm                  |
| 3   | Optimal context          | Bối cảnh / Môi trường tối ưu                  |
| 4   | Guided play              | Trò chơi có sự hướng dẫn của người lớn        |
| 5   | Child-centered approach  | Phương pháp tiếp cận lấy trẻ em làm trung tâm |
| 6   | Creative problem-solving | Giải quyết vấn đề một cách sáng tạo           |
| 7   | Full consensus           | Sự nhất trí toàn bộ / đồng thuận hoàn toàn    |
| 8   | Process-oriented         | Hướng về quá trình (không đặt nặng kết quả)   |
| 9   | Fundamental right        | Quyền cơ bản / cốt lõi                        |

|    |                              |                                         |
|----|------------------------------|-----------------------------------------|
| 10 | Academic standards           | Các tiêu chuẩn học thuật / học tập      |
| 11 | Behavioral criteria          | Các tiêu chí về hành vi                 |
| 12 | Targeted learning experience | Trải nghiệm học tập có mục tiêu rõ ràng |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Play serves an \_\_\_\_\_ role in early human development by promoting emotional and social skills simultaneously.

- A. instrumental      B. discrete      C. extrinsic      D. non-literal

**Question 2:** Viewing play and academic learning as opposing forces creates a \_\_\_\_\_ that harms early childhood education.

- A. consensus      B. continuum      C. facet      D. false dichotomy

**Question 3:** Driven purely by \_\_\_\_\_, young children engage in imaginative games simply because they find them enjoyable.

- A. academic standards      B. targeted learning experiences  
C. intrinsic motivation      D. behavioral criteria

**Question 4:** A comprehensive scientific definition of play continues to \_\_\_\_\_ scholars who analyze childhood behaviors.

- A. facilitate      B. elude      C. expound      D. foster

**Question 5:** True play is primarily \_\_\_\_\_ rather than focused on achieving a specific tangible end result.

- A. discrete      B. robust      C. predominant      D. process-oriented

**Exercise 2: Choose the correct collocation.**

**Question 6:** Combining adult instruction with free exploration creates a \_\_\_\_\_ environment for acquiring mathematical skills.

- A. false dichotomy      B. optimal context  
C. fundamental right      D. behavioral criterion

**Question 7:** During structured activities, teachers can \_\_\_\_\_ learning by asking open-ended questions about what children discover.

- A. facilitate      B. elude      C. expound      D. deprive

**Question 8:** Granting toddlers complete \_\_\_\_\_ during outdoor playtime encourages independence and personal confidence.

- A. consensus      B. detriment      C. autonomy      D. continuum

**Question 9:** Educational research emphasizes that early childhood curricula should adopt a \_\_\_\_\_ philosophy.

- A. targeted learning experience      B. full consensus  
C. academic standard      D. child-centered approach

**Question 10:** Engaging in symbolic role-play helps preschoolers develop a varied \_\_\_\_\_ of social interaction strategies.

- A. detriment      B. facet      C. dichotomy      D. repertoire

### Exercise 3: Complete the sentences

**Question 11:** The United Nations officially declared play as a \_\_\_\_\_ of every human child worldwide.

- A. fundamental right      B. false dichotomy  
C. behavioral criterion      D. targeted learning experience

**Question 12:** Psychologists often view play along a broad \_\_\_\_\_ ranging from completely free play to direct instruction.

- A. detriment      B. consensus      C. continuum      D. repertoire

**Question 13:** Excessive pressure to meet rigid \_\_\_\_\_ can inadvertently reduce the valuable play time young kids need.

- A. discrete options      B. academic standards  
C. false dichotomies      D. fundamental rights

**Question 14:** In effective early education, adults act as subtle partners through structured \_\_\_\_\_ techniques.

- A. full consensus      B. process orientation  
C. guided play      D. false dichotomy

**Question 15:** Combining structured task goals with play does not cause any permanent \_\_\_\_\_ to academic mastery.

- A. facet      B. autonomy      C. consensus      D. detriment

### Exercise 4: Choose the best answer.

**Question 16:** The word **facilitate** is closest in meaning to:

- A. hinder      B. assist      C. terminate      D. force

**Question 17:** The word **elude** is closest in meaning to:

- A. evade      B. capture      C. clarify      D. reveal

**Question 18:** The word **detriment** is closest in meaning to:

- A. benefit      B. harm      C. balance      D. progress

**Question 19:** The word **autonomy** is closest in meaning to:

- A. dependency      B. restriction      C. independence      D. obedience

**Question 20:** The word **optimal** is closest in meaning to:

- A. inadequate      B. temporary      C. ideal      D. forced

### Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| A  | D  | C  | B  | D  | B  | A  | C  | D  | D  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| A  | C  | B  | C  | D  | B  | A  | B  | C  | C  |

## CAM 14 - TEST 4 - READING PASSAGE 1

### THE SECRET OF STAYING YOUNG

Topic: Entomology • Neuroscience • Aging & Senescence • Animal Behavior

#### PART 1. VOCABULARY

| STT | Vocabulary   | POS | IPA               | Meaning                      | Synonyms                     |
|-----|--------------|-----|-------------------|------------------------------|------------------------------|
| 1   | defy         | v   | /dɪ'faɪ/          | thách thức, cưỡng lại        | resist, challenge, withstand |
| 2   | deteriorate  | v   | /dɪ'tɪəriəreɪt/   | suy giảm, thoái hóa          | decline, worsen, degenerate  |
| 3   | isolated     | adj | /'aɪsəleɪtɪd/     | biệt lập, cô độc             | solitary, secluded, detached |
| 4   | pupa         | n   | /'pju:pə/         | nhộng (số nhiều: pupae)      | chrysalis, insect stage      |
| 5   | counterpart  | n   | /'kaʊntəpɑ:t/     | đối tác, người/vật tương ứng | equivalent, peer, match      |
| 6   | flare        | v   | /fleə/            | xò ra, mở rộng ra            | spread, widen, expand        |
| 7   | mandible     | n   | /'mændɪbl/        | hàm dưới (của côn trùng)     | jaw, mouthpart               |
| 8   | density      | n   | /'densəti/        | mật độ                       | concentration, thickness     |
| 9   | synaptic     | adj | /sɪ'næptɪk/       | thuộc về khớp thần kinh      | neuronal connection          |
| 10  | coincide     | v   | /'kəʊɪn'saɪd/     | xảy ra đồng thời             | concur, overlap              |
| 11  | senescence   | n   | /sɪ'nesns/        | sự lão hóa, sự già đi        | aging, biological aging      |
| 12  | harsh        | adj | /hɑ:f/            | khắc nghiệt, gay gắt         | severe, rigorous, tough      |
| 13  | steep        | adj | /sti:p/           | dốc, đột ngột                | sharp, sudden, precipitous   |
| 14  | entomologist | n   | /'entə'mɒlədʒɪst/ | nhà côn trùng học            | insect researcher            |
| 15  | track        | v   | /træk/            | theo dõi, tầm soát           | monitor, follow, trace       |

|    |            |     |                |                              |                            |
|----|------------|-----|----------------|------------------------------|----------------------------|
| 16 | tethered   | adj | /ˈteðəd/       | bị buộc, bị trói             | tied, fastened, restrained |
| 17 | aggressive | adj | /əˈɡresɪv/     | hung hãn, tấn công           | hostile, combative, fierce |
| 18 | structure  | n   | /ˈstrʌktʃə/    | cấu trúc, bộ phận            | organization, formation    |
| 19 | chemical   | n   | /ˈkemɪkl/      | hóa chất, chất hóa học       | substance, compound        |
| 20 | predator   | n   | /ˈpredətə/     | động vật ăn thịt, kẻ săn mồi | hunter, carnivore          |
| 21 | complexity | n   | /kəmˈpleksəti/ | sự phức tạp                  | intricacy, complication    |
| 22 | sharply    | adv | /ˈʃɑːpli/      | nhảy bén, sắc bén            | acutely, keenly            |
| 23 | estimate   | v   | /ˈestɪmənt/    | ước tính, dự đoán            | calculate, gauge, assess   |
| 24 | function   | n   | /ˈfʌŋkʃn/      | chức năng, nhiệm vụ          | role, purpose, capacity    |
| 25 | aspect     | n   | /ˈæspekt/      | khía cạnh                    | feature, facet, side       |

## PART 2. COLLOCATIONS

| STT | Collocation              | Meaning                                     |
|-----|--------------------------|---------------------------------------------|
| 1   | Social complexity        | Sự phức tạp về mặt xã hội                   |
| 2   | Age-defying feat         | Kỳ tích thách thức tuổi tác / chống lão hóa |
| 3   | Telltale scent           | Mùi hương đặc trưng / dấu vết nhận biết     |
| 4   | Age-related decline      | Sự suy giảm do tuổi tác                     |
| 5   | Synaptic complex         | Phức hợp khớp thần kinh                     |
| 6   | Animal kingdom           | Thế giới / Vương quốc động vật              |
| 7   | Doctoral thesis          | Luận văn tiến sĩ                            |
| 8   | Brain function           | Chức năng não bộ                            |
| 9   | Biological aging         | Sự lão hóa sinh học                         |
| 10  | Environmental conditions | Các điều kiện môi trường                    |
| 11  | Neural change            | Sự thay đổi thần kinh                       |
| 12  | Social insects           | Côn trùng sống thành xã hội / bầy đàn       |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Naked mole rats perform a rare \_\_\_\_\_ by remaining fit and reproductive even into advanced age.

- A. age-defying feat                      B. doctoral thesis
- C. telltale scent                         D. synaptic complex

**Question 2:** Unlike laboratory animals that live in isolation, social insects display high \_\_\_\_\_ in their daily colony interactions.

- A. age-related decline                B. social complexity
- C. biological aging                      D. neural change

**Question 3:** Human bodies naturally \_\_\_\_\_ as time passes, experiencing physical and cognitive decline over the years.

- A. flare                      B. tether                      C. deteriorate                      D. coincide

**Question 4:** Workers in an ant colony locate food sources by following a \_\_\_\_\_ left by scout ants.

- A. synaptic complex                      B. doctoral thesis
- C. telltale scent                            D. biological aging

**Question 5:** Older worker ants displayed surprisingly strong caretaking skills compared to their younger \_\_\_\_\_.

- A. predators                      B. counterparts                      C. mandibles                      D. entomologists

**Exercise 2: Choose the correct collocation.**

**Question 6:** When attacking an intruder, worker ants widely spread their sharp \_\_\_\_\_ to defend their nest.

- A. mandibles                      B. pupae                      C. densities                      D. thesis

**Question 7:** Neuroscientists measured the density of every \_\_\_\_\_ within the mushroom bodies of the ant brain.

- A. age-defying feat                      B. telltale scent
- C. synaptic complex                      D. doctoral thesis

**Question 8:** Reductions in essential brain chemicals often \_\_\_\_\_ severe memory impairment and neurological conditions in humans.

- A. coincide with                      B. deteriorate from                      C. defy against                      D. tether to

**Question 9:** Scientific research on honeybee longevity revealed mixed results regarding noticeable \_\_\_\_\_.

- A. social complexity                      B. age-related decline
- C. telltale scent                            D. animal kingdom

**Question 10:** Wild insects rarely reach their maximum potential lifespan due to the presence of natural \_\_\_\_\_.

A. counterparts      B. entomologists      C. pupae      D. predators

### Exercise 3: Complete the sentences

**Question 11:** Dr. Giraldo tracked individual insects from the exact moment they emerged as adults from their \_\_\_\_\_.

A. mandibles      B. pupae      C. complexity      D. density

**Question 12:** Organisms living in natural habitats routinely face extreme weather and \_\_\_\_\_ environmental conditions.

A. harsh      B. isolated      C. synaptic      D. steep

**Question 13:** A prominent \_\_\_\_\_ from the University of Illinois highlighted the potential value of studying social bugs.

A. counterpart      B. predator      C. entomologist      D. mandible

**Question 14:** Biologists use the scientific term \_\_\_\_\_ to describe the progressive degradation of bodily functions with age.

A. density      B. thesis      C. structure      D. senescence

**Question 15:** Insects that experience an immediate, \_\_\_\_\_ decline in health typically die shortly after the onset of weakness.

A. harsh      B. isolated      C. steep      D. synaptic

### Exercise 4: Choose the best answer.

**Question 16:** The word **deteriorate** is closest in meaning to:

A. decline      B. expand      C. flourish      D. recover

**Question 17:** The word **defy** is closest in meaning to:

A. accept      B. resist      C. surrender      D. accelerate

**Question 18:** The word **harsh** is closest in meaning to:

A. gentle      B. severe      C. comfortable      D. stable

**Question 19:** The word **steep** is closest in meaning to:

A. sharp      B. gradual      C. mild      D. insignificant

**Question 20:** The word **isolated** is closest in meaning to:

A. social      B. solitary      C. crowded      D. connected

## Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| A  | B  | C  | C  | B  | A  | C  | A  | B  | D  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| B  | A  | C  | D  | C  | A  | B  | B  | A  | B  |

## CAM 14 - TEST 4 - READING PASSAGE 2

### WHY ZOOS ARE GOOD

Topic: Biodiversity Conservation • Zoological Science • Public Education

#### PART 1. VOCABULARY

| STT | Vocabulary    | POS | IPA                | Meaning                          | Synonyms                         |
|-----|---------------|-----|--------------------|----------------------------------|----------------------------------|
| 1   | ostracism     | n   | /ˈɒstrəsɪzəm/<br>/ | sự bài xích, tẩy chay            | exclusion, rejection, banishment |
| 2   | parasite      | n   | /ˈpærəsaɪt/        | ký sinh trùng                    | organism feeding on a host       |
| 3   | colossal      | adj | /kəˈlɒsl/          | khổng lồ, to lớn                 | massive, enormous, immense       |
| 4   | captivity     | n   | /kæpˈtɪvəti/       | tình trạng bị giam giữ/nuôi nhốt | confinement, detention           |
| 5   | reintroduce   | v   | /ˌriːɪntrəˈdjuːs/  | thả về tự nhiên / tái nhập đàn   | restore, bring back              |
| 6   | initiative    | n   | /ɪˈnɪʃətɪv/        | sáng kiến, phương án             | plan, enterprise, strategy       |
| 7   | specimen      | n   | /ˈspesɪmən/        | mẫu vật                          | sample, example                  |
| 8   | sophisticated | adj | /səˈfɪstɪkeɪtɪd/   | tinh vi, phức tạp, nâng cao      | advanced, complex, refined       |
| 9   | outreach      | n   | /ˈaʊtriːtʃ/        | hoạt động cộng đồng, tiếp cận    | community involvement            |
| 10  | variable      | n   | /ˈveəriəbl/        | biến số, yếu tố thay đổi         | factor, element                  |
| 11  | oestrus       | n   | /ˈiːstrəs/         | chu kỳ động dục                  | reproductive heat cycle          |
| 12  | bolster       | v   | /ˈbəʊlstə/         | củng cố, tăng cường              | reinforce, strengthen, boost     |
| 13  | anaesthetic   | n   | /ˌænəsˈθetɪk/      | thuốc mê, thuốc tê               | painkiller, sedative             |
| 14  | conscious     | adj | /ˈkɒnjəs/          | có ý thức, nhận thức             | aware, mindful, deliberate       |

|    |              |   |                 |                                |                               |
|----|--------------|---|-----------------|--------------------------------|-------------------------------|
| 15 | starvation   | n | /stɑ:'veɪʃn/    | sự chết đói                    | extreme hunger, famine        |
| 16 | reservoir    | n | /'rezəvwa:/     | nguồn dự trữ, kho lưu trữ      | supply, store, reserve        |
| 17 | ecosystem    | n | /'i:kəʊsɪstə m/ | hệ sinh thái                   | ecological network            |
| 18 | handling     | n | /'hændlɪŋ/      | sự xử lý, điều khiển, quản lý  | management, treatment         |
| 19 | appreciation | n | /əˌpri:ʃi'eɪʃn/ | sự trân trọng, hiểu rõ giá trị | gratitude, valuing, awareness |
| 20 | threat       | n | /θret/          | mối đe dọa                     | hazard, danger, risk          |
| 21 | expectancy   | n | /ɪk'spektəns i/ | tuổi thọ dự kiến / sự chờ đợi  | lifespan projection           |
| 22 | habitat      | n | /'hæbɪtæt/      | môi trường sống                | natural environment           |
| 23 | procedure    | n | /prə'si:dʒə/    | quy trình, thủ tục             | process, protocol, step       |
| 24 | boost        | v | /bu:st/         | thúc đẩy, gia tăng             | increase, enhance             |
| 25 | conflict     | n | /'kɒnflɪkt/     | sự xung đột, tranh chấp        | dispute, friction, clash      |

## PART 2. COLLOCATIONS

| STT | Collocation               | Meaning                                    |
|-----|---------------------------|--------------------------------------------|
| 1   | Life expectancy           | Tuổi thọ trung bình dự kiến                |
| 2   | Social ostracism          | Sự bài xích xã hội / tẩy chay              |
| 3   | Reservoir population      | Quần thể dự trữ (để bảo tồn)               |
| 4   | Captive breeding          | Việc nhân giống trong môi trường nuôi nhốt |
| 5   | Environmentally conscious | Có ý thức về môi trường                    |
| 6   | In the flesh              | Bằng xương bằng thịt (gặp trực tiếp)       |
| 7   | Human-animal conflict     | Xung đột giữa con người và động vật        |
| 8   | Habitat destruction       | Sự phá hủy môi trường sống                 |
| 9   | Knowledge base            | Cơ sở kiến thức                            |
| 10  | Reintroduction success    | Thành công trong việc thả về tự nhiên      |

|    |                     |                                    |
|----|---------------------|------------------------------------|
| 11 | Direct presentation | Thuyết trình / trình bày trực tiếp |
| 12 | Ecological balance  | Cân bằng sinh thái                 |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Educating the public about biodiversity aims to make future generations far more environmentally \_\_\_\_\_.

- A. conscious      B. sophisticated      C. colossal      D. variable

**Question 2:** Animals kept in captivity often enjoy a significantly higher life \_\_\_\_\_ than their wild counterparts.

- A. ostracism      B. expectancy      C. variable      D. specimen

**Question 3:** Observing a rare predator live \_\_\_\_\_ creates a lasting impression that books cannot duplicate.

- A. in captivity      B. in standard      C. in the flesh      D. in dynamic

**Question 4:** Proper veterinary care protects captive animals against painful infestations caused by internal \_\_\_\_\_.

- A. habitats      B. specimens      C. reservoirs      D. parasites

**Question 5:** Modern zoological facilities undertake extensive educational \_\_\_\_\_ projects to raise awareness in urban areas.

- A. outreach      B. starvation      C. conflict      D. ostracism

**Exercise 2: Choose the correct collocation.**

**Question 6:** Preventing total extinction often depends on establishing a healthy \_\_\_\_\_ inside protected animal sanctuaries.

- A. life expectancy      B. social ostracism  
C. reservoir population      D. environmental conscious

**Question 7:** Research conducted on animal hormones can \_\_\_\_\_ practical efforts to rescue endangered wild groups.

- A. bolster      B. reintroduce      C. ostracize      D. deteriorate

**Question 8:** To safely relocate large wild mammals, field vets rely on precise dosage guidelines for modern \_\_\_\_\_.

- A. specimens      B. initiatives      C. variables      D. anaesthetics

**Question 9:** Rapid industrial growth and deforestation worldwide continue to cause widespread \_\_\_\_\_ for local wildlife.

- A. captive breeding      B. habitat destruction  
C. knowledge base      D. direct presentation

**Question 10:** Some endangered species survive today solely because programs for \_\_\_\_\_ successfully expanded their numbers.

- A. social ostracism      B. captive breeding  
C. habitat destruction      D. human-animal conflict

### Exercise 3: Complete the sentences

**Question 11:** Wild animals living in competitive groups sometimes experience severe bullying and group \_\_\_\_\_.

- A. specimen      B. outreach      C. expectation      D. ostracism

**Question 12:** Conservation initiatives strive to minimize incidents of \_\_\_\_\_ near growing human settlements.

- A. human-animal conflict      B. reservoir population  
C. direct presentation      D. life expectancy

**Question 13:** Environmental organizations faced \_\_\_\_\_ losses of animal numbers before conservation programs were deployed.

- A. conscious      B. colossal      C. discrete      D. non-literal

**Question 14:** Laboratory settings enable biologists to conduct precise experiments while eliminating unpredictable outdoor \_\_\_\_\_.

- A. procedures      B. specimens      C. variables      D. reservoirs

**Question 15:** Biologists must carefully monitor the reproductive \_\_\_\_\_ to schedule breeding interventions effectively.

- A. oestrus cycle      B. social ostracism  
C. habitat destruction      D. life expectancy

### Exercise 4: Choose the best answer

**Question 16:** The word **colossal** is closest in meaning to:

- A. tiny      B. massive      C. temporary      D. hidden

**Question 17:** The word **bolster** is closest in meaning to:

- A. reduce      B. ignore      C. strengthen      D. abandon

**Question 18:** The word **ostracism** is closest in meaning to:

- A. exclusion      B. welcome      C. shelter      D. affection

**Question 19:** The word **sophisticated** is closest in meaning to:

- A. primitive      B. advanced      C. basic      D. outdated

**Question 20:** The word **initiative** is closest in meaning to:

- A. hesitation      B. refusal      C. mistake      D. plan

### Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| A  | B  | C  | D  | A  | C  | A  | D  | B  | B  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| D  | A  | B  | C  | A  | B  | C  | A  | B  | D  |

## CAM 14 - TEST 4 - READING PASSAGE 3

### MARINE DEBRIS & MICROPLASTICS

Topic: Marine Biology • Environmental Science

#### PART 1. VOCABULARY

| STT | Vocabulary  | POS | IPA           | Meaning                          | Synonyms                       |
|-----|-------------|-----|---------------|----------------------------------|--------------------------------|
| 1   | dismal      | adj | /ˈdɪzməl/     | u ám, ảm đạm, bi quan            | gloomy, depressing, bleak      |
| 2   | debris      | n   | /ˈdeɪbriː/    | mảnh vụn, rác thải, phế liệu     | rubbish, waste, refuse         |
| 3   | perceived   | adj | /pəˈsiːvd/    | được cảm nhận, được cho là       | apparent, supposed, presumed   |
| 4   | speculate   | v   | /ˈspekjuleɪt/ | suy đoán, phỏng đoán             | conjecture, hypothesize, guess |
| 5   | validity    | n   | /vəˈlɪdəti/   | tính hiệu lực, tính chính xác    | soundness, legitimacy, truth   |
| 6   | statistical | adj | /stəˈtɪstɪkl/ | thuộc về thống kê                | numerical, analytical          |
| 7   | ingest      | v   | /ɪnˈdʒest/    | nuốt vào, tiêu thụ (thức ăn/rác) | swallow, consume, take in      |
| 8   | bloodstream | n   | /ˈblʌdstriːm/ | dòng máu, hệ tuần hoàn           | circulation, vascular system   |
| 9   | bothersome  | adj | /ˈbɒðəsəm/    | gây khó chịu, phiền phức         | annoying, troublesome, irksome |
| 10  | entangle    | v   | /ɪnˈtæŋɡl/    | vướng vào, mắc kẹt               | enmesh, trap, ensnare          |
| 11  | cosmetics   | n   | /kɒzˈmetɪks/  | mỹ phẩm, đồ trang điểm           | make-up, beauty products       |
| 12  | toiletries  | n   | /ˈtɔɪlətriːz/ | đồ dùng vệ sinh cá nhân          | personal care products         |
| 13  | eroded      | adj | /ɪˈrəʊdɪd/    | bị ăn mòn, bào mòn               | worn away, degraded, weathered |

|    |               |     |                  |                                 |                                         |
|----|---------------|-----|------------------|---------------------------------|-----------------------------------------|
| 14 | remnant       | n   | /'remnənt/       | mảnh nhỏ còn lại, tàn dư        | residue, remainder, leftover            |
| 15 | concentration | n   | /,kɒnsnə'treɪʃn/ | nồng độ, sự tập trung           | density, proportion, accumulation       |
| 16 | tissue        | n   | /'tɪʃu:/         | mô (sinh học)                   | cellular structure, biological material |
| 17 | ecological    | adj | /,i:kə'lɒdʒɪkl/  | thuộc sinh thái học             | environmental, bionic                   |
| 18 | tanker        | n   | /'tæŋkə/         | tàu chở dầu/chất lỏng           | cargo ship, oil vessel                  |
| 19 | cargo         | n   | /'kɑ:geu/        | hàng hóa (vận chuyển)           | freight, shipment, load                 |
| 20 | policy        | n   | /'pɒləsi/        | chính sách, chủ trương          | strategy, guideline, rule               |
| 21 | simulation    | n   | /,sɪmjʊ'leɪʃn/   | sự mô phỏng, thử nghiệm giả lập | model, virtual test, representation     |
| 22 | strategic     | adj | /strə'ti:dʒɪk/   | có tính chiến lược, tính toán   | calculated, planned, tactical           |
| 23 | misperception | n   | /,mɪspə'seɪʃn/   | sự hiểu lầm, ngộ nhận           | misconception, misunderstanding         |
| 24 | stranding     | n   | /'strændɪŋ /     | sự mắc cạn (của động vật biển)  | beaching, grounding                     |
| 25 | interrogate   | v   | /ɪn'terəgeɪt/    | chất vấn, kiểm tra kỹ lưỡng     | examine, question, scrutinize           |

## PART 2. COLLOCATIONS

| STT | Collocation       | Meaning                              |
|-----|-------------------|--------------------------------------|
| 1   | Marine debris     | Rác thải đại dương / phế liệu biển   |
| 2   | Sound alarm bells | Dấy lên hồi chuông cảnh báo          |
| 3   | Perceived threat  | Mối đe dọa được nhận thức / giả định |
| 4   | Control group     | Nhóm đối chứng (trong thí nghiệm)    |
| 5   | Faulty statistics | Số liệu thống kê sai lệch / lỗi      |
| 6   | Microscopic bits  | Những mảnh vi mô / cực nhỏ           |

|    |                       |                                                |
|----|-----------------------|------------------------------------------------|
| 7  | Strategic positioning | Sự bố trí / đặt vị trí mang tính chiến lược    |
| 8  | Ecological relevance  | Tính tương thích / có ý nghĩa về mặt sinh thái |
| 9  | Synthetic clothing    | Quần áo làm từ sợi tổng hợp                    |
| 10 | Scientific literature | Tài liệu / công trình nghiên cứu khoa học      |
| 11 | Ecosystem destruction | Sự phá hủy hệ sinh thái                        |
| 12 | Slow-moving effect    | Tác động tiến triển chậm / kéo dài             |

## PART 3. EXERCISES

**Exercise 1: Mark the letter A, B, C, or D to indicate the correct answer.**

**Question 1:** Research teams aiming for rigorous results must include a proper \_\_\_\_\_ in their experimental setups.

- A. control group                      B. perceived threat  
C. synthetic clothing                D. scientific literature

**Question 2:** Environmental advocates continuously \_\_\_\_\_ regarding the rapid accumulation of plastic debris in the oceans.

- A. ingest items                        B. sound alarm bells  
C. interrogate sources                D. speculate outcomes

**Question 3:** Sea creatures often \_\_\_\_\_ tiny pieces of trash, mistaking them for natural sources of food.

- A. erode      B. interrogate      C. ingest      D. speculate

**Question 4:** Floating fishing ropes easily \_\_\_\_\_ marine animals, causing severe injuries or restricted movement.

- A. speculate      B. erode      C. ingest      D. entangle

**Question 5:** Computer-based \_\_\_\_\_ help researchers model the long-term effectiveness of ocean cleanup strategies.

- A. misperceptions      B. simulations      C. remnants      D. concentrations

**Exercise 2: Choose the correct collocation.**

**Question 6:** Studies with flawed methodology often rely on \_\_\_\_\_ that distort the true severity of the issue.

- A. control groups                      B. synthetic clothing  
C. faulty statistics                      D. strategic positionings

**Question 7:** Washing loads of \_\_\_\_\_ releases thousands of microfibers directly into municipal drainage systems.

- A. synthetic clothing      B. control group      C. faulty statistics      D. perceived threat

**Question 8:** Placing collection barrier barriers near river mouths provides a \_\_\_\_\_ to prevent ocean entry.

- A. scientific literature                B. strategic positioning  
C. control group                        D. perceived threat

**Question 9:** Ecologists carefully analyze existing \_\_\_\_\_ to verify whether theoretical environmental risks have empirical proof.

- A. control group                      B. scientific literature  
C. faulty statistics                  D. synthetic clothing

**Question 10:** Many initial warnings about chemical hazards were based on a \_\_\_\_\_ rather than confirmed field observations.

- A. perceived threat                  B. control group  
C. strategic positioning          D. synthetic clothing

### Exercise 3: Complete the sentences

**Question 11:** Marine organisms are constantly exposed to massive quantities of floating \_\_\_\_\_.

- A. validity    B. simulation                  C. marine debris                  D. concentration

**Question 12:** Flawed laboratory setups can significantly undermine the overall \_\_\_\_\_ of published scientific claims.

- A. validity    B. cargo                  C. remnant                  D. stranding

**Question 13:** Tiny particles can move through digestive walls directly into the animal's \_\_\_\_\_.

- A. cosmetics                  B. bloodstream                  C. simulation                  D. tanker

**Question 14:** Public campaigns need to correct widespread \_\_\_\_\_ regarding the actual density of floating ocean trash.

- A. remnants                  B. concentrations                  C. misperceptions                  D. toiletries

**Question 15:** An offshore \_\_\_\_\_ accident can release thousands of tons of raw crude oil into delicate coastal waters.

- A. tanker    B. tissue                  C. remnant                  D. simulation

### Exercise 4: Choose the best answer.

**Question 16:** The word **dismal** is closest in meaning to:

- A. bright    B. gloomy                  C. hopeful                  D. simple

**Question 17:** The word **speculate** is closest in meaning to:

- A. confirm                  B. measure                  C. conjecture                  D. ignore

**Question 18:** The word **interrogate** is closest in meaning to:

- A. accept    B. publish                  C. discard                  D. scrutinize

**Question 19:** The word **bothersome** is closest in meaning to:

- A. troublesome                  B. beneficial                  C. pleasant                  D. invisible

**Question 20:** The word **remnant** is closest in meaning to:

- A. origin    B. whole                  C. residue                  D. purpose

## Answer Key

|    |    |    |    |    |    |    |    |    |    |
|----|----|----|----|----|----|----|----|----|----|
| 1  | 2  | 3  | 4  | 5  | 6  | 7  | 8  | 9  | 10 |
| A  | B  | C  | D  | B  | C  | A  | B  | B  | A  |
| 11 | 12 | 13 | 14 | 15 | 16 | 17 | 18 | 19 | 20 |
| C  | A  | B  | C  | A  | B  | C  | D  | A  | C  |
